

FEEL POLICEMAN SHOT IN ROW RECOVERING

W. J. Hackett, Victim of Own Gun During Scuffle, Has Turn for Better

The condition of Police Officer W. J. Hackett, shot Sunday by his own revolver and believed to be the better of the scuffle, is reported to be improving. Hackett, who was shot in the chest, is now in the hospital, and is expected to recover. The incident occurred during a scuffle between Hackett and a man named Mike Kearns, who was also shot. Hackett is now in the hospital, and is expected to recover. The incident occurred during a scuffle between Hackett and a man named Mike Kearns, who was also shot. Hackett is now in the hospital, and is expected to recover.

TUNNEL SUIT POSTPONED UNTIL TODAY

Court Continues Trial of Action to Restrict Granting of Franchise

Owing to the trial of another case in his department, Judge Craig of Superior Court yesterday continued until today the trial of the suit brought by John W. Arnold to restrain the City Council from granting a franchise to the Los Angeles Railway Company for the maintaining of streetcar tracks in the North Broadway tunnel. Arnold is seeking an injunction on the ground that the tunnel was conveyed to the city by property owners with the provision that no streetcar ever be run in it. The trial was postponed until today.

GOSPEL OF PLAY WILL BE SPREAD

Pledging himself to "promote the spirit of play" among the citizens of Los Angeles, George H. H. Hackett, recreation expert of Berkeley, Cal., and his wife, Mrs. Hackett, who are visiting in Los Angeles, announced today that they had outlined their plans for the betterment of recreational facilities in this city at a luncheon given in his honor yesterday by the Department of Recreation. Hackett is a well-known expert on recreation, and his visit to Los Angeles is part of a tour of the West.

NOTE SENT TO MEXICO

Capital Expects End of Dispute

Conciliatory Tone Adopted in Latest Message on Land Laws, Say Reports

WASHINGTON, March 2.—The American note to Mexico, bearing on the diplomatic dead-end which has developed as a result of the promulgation of the new Mexican land laws, is expected to be conciliatory in tone, according to reports from the State Department. The note is expected to be sent to Mexico today.

President Fails to Find Any Reason for Worry Over Present Situation

WASHINGTON, March 2.—The President, who is expected to find no reason for worry over the present situation in Mexico, is reported to be in a conciliatory mood. The President is expected to be in Mexico City today.

RELIGIOUS DISORDERS IN MEXICO

Governor Prevents Parade; Newspaper Head Wounded in Clash Over Schools

CITY GUARDIA CITY (MEX.) March 2.—Jose Reyes Estrada, director of La Voz, Chihuahua City newspaper, was wounded today in a clash with Manuel Chavez, chief of the Agricolatura Bureau of the State of Chihuahua, growing out of the religious controversy involving the closing of schools. The difficulty followed the refusal of Gov. Almeida to permit a demonstration by 500 Catholics who assembled in Lardo Park for a monster parade, while 100 Masons had congregated in Hidalgo Plaza awaiting developments. The action of the Governor was taken to prevent a possible clash between Catholics and Masons in the event the plans for the demonstration were carried out. The situation is regarded as serious and elaborate precautions are being taken to prevent disorders and possible bloodshed.

Song Freedom Now Curbed by Fascist Power

BY CABLE AND ASSOCIATED PRESS. ROME, March 2.—With speech somewhat censored, now it is the turn of freedom of song to meet a similar fate at the hands of Fascist rulers. Fascists who desire to quell the Blackshirt crowd must henceforth do so only in musical action approved by the national directorate.

Higher Wages Mexican Need, Says Obregon

BY CABLE AND ASSOCIATED PRESS. MEXICO CITY, March 2.—The Mexican Minister of Finance, Gen. Obregon, today said that the Mexican people need higher wages. He said that the Mexican people are suffering from the effects of the revolution, and that they need higher wages to live.

STOCKS COLLAPSE IN SLIDE

Concerted Raid on Rails Before Disapproval of Nickel Plate Deal Laid to Leak

NEW YORK, March 2.—A tidal wave of selling orders swept over the New York stock market today and carried scores of issues down close to forty points in the severest crash that the New York Stock Exchange has encountered since the deflationary movement of 1920-21. The full force of the impact of selling did not strike the market until the last hour, during which total sales exceeded 1,400,000 shares, a new high record, bringing the day's total to 2,015,700 as against the record-breaking total of 2,340,400 shares last November 10.

Word from Kin

(BY A. P. NIGHT WIRE)
ATLANTA (Ga.), Mar. 2.—John Whitehouse Worthington, known as the "Wolf of La Salle Street," died today at the Federal penitentiary, where he was serving a term for using the mails to defraud.

Death was caused by a stroke of paralysis. Worthington was brought to the penitentiary on October 10, 1925, to serve two years. He was suffering from diabetes and a former paralytic stroke, and had to be carried into the penitentiary.

During his six months' confinement he was kept in the prison hospital and given special treatment for diabetes. His condition was thought to be improving, but the second stroke of paralysis this morning proved fatal.

Funeral arrangements will not be completed until word is received from relatives. Jans Allen, widow of Worthington's daughter, is in charge of the arrangements.

After charges were made against Worthington he fled and it was several years before he returned voluntarily to face the accusations. Due to his physical condition, special efforts were

PARIS RATIFIES
LOCARNO PACTChamber of Deputies Holds
Uproarious SessionBriand Declares France Must
Lead in Ending RancorFavors Giving Poland Seat in
League Council

(BY CABLE AND ASSOCIATED PRESS)
PARIS, March 2.—The Locarno security pact was ratified by the Chamber of Deputies this evening after an uproarious session by a vote of 413 to 71. In the course of the debate the Alsatian radical deputy, Huber, aroused the indignation of the entire assembly by shouting in the Alsatian dialect: "Alsace is not the heart of France."

Many deputies who criticized the pact voted for it because they considered that with all its imperfections, it was necessary to approve it as the first step toward the tranquillization of Europe. A number of others abstained from voting.

The Foreign Secretary will try to get the Locarno pact ratified by the Council of the League of Nations. He also will try to get the League of Nations to accept the Locarno pact.

GRANDMA FLIES TO
SIDE OF SICK CHILD

Mrs. B. M. Halbert

DECATUR (Ill.) March 2.—After a fast train ride over the plant of Texas from San Antonio, Mrs. B. M. Halbert, 50-year-old grand-

mother, boarded an airplane at the municipal flying field at San Antonio, Tex., in a race to the bedside of her 5-year-old grandchild, ill with diphtheria here. The race with death was disrupted when the pilot was forced to land near Butler, Mo., by a raging storm. Undaunted, Mrs. Halbert motored to the closest railroad station and boarded a train to her daughter's home. On arriving here she found her grandchild much improved. The "dying grandma," as she is being called, declared she was "thrilled" over her first air ride that she now wants to buy a plane of her own.

HOPES OF RIVER
BILL ABANDONEDSituation Held Hopeless in
Spite of NecessitySwing Chiefly Concerned
Now With Political AspectHostility to Johnson Proves
Stumbling Block

(Continued from First Page)
hearted determination to render such service as he could.

The unfortunate fact is that neither the administration as such nor any part thereof, can overcome the extreme hostility to Senator Johnson in the upper house of Congress. He has chosen to make himself not only an opponent to the President and his administration, but to the leaders in the Senate.

While the administration has, through Hoover and Work, shown itself willing to overlook this, Mr. Johnson's colleagues appear not to be so magnanimous.

Some of the comments of some of them, the indomitable slogan of the French, "They shall not pass," has been seized to express the feeling of some of the Senators toward any legislation sponsored by the senior Senator from California.

FANS HOSTILITIES
In his fight for the Johnson bill, Mr. Johnson should be said that he has gone out of his way to curry favor or win the regard of those from whom he must depend for co-operation. His endeavors have been of a contrary nature, as exemplified, for instance, by his brilliant and personally offensive challenge during the World Court debate to more than a dozen Republican Senators.

In thus singling out for derisive reference a group which can, by its united influence, virtually determine the course of legislation, Mr. Johnson fanned anew the hostility which he has so often fanned. He is a lonely figure and not in the sense that Borah is alone, for Borah is surrounded by a certain amount of influence. Mr. Johnson's lonely position closely approaches isolation.

Inevitably, the Colorado River situation as shown by developments here and in the Southwest comes back to two fundamental considerations. The first relates to the necessity for some form of agreement between all seven of the river basin States as a precedent to action by Congress and the second shows the need for less political maneuvering on the part of those assuming responsibility for the problem in the Congress.

The Senate and House committees will dispose of the Swing-Johnson bill within the next few weeks, the House committee resuming its consideration of the bill tomorrow. The Senate committee will not take the matter up until it has conferred with Secretary Work.

SELLING WAVE
SWEEPS STOCKS
(Continued from First Page)
Telephone booths scattered around the room.

When the market closed tonight the average of twenty leading industrial stocks was 119.14, down from 120.14, the high of 144.07, established on February 11, last, a decline of about 10 points having taken place since a week ago Saturday. The average of twenty leading railroad issues was down about 3.44 points from the year's high of 117.59, last, a decline of 8.44 points being recorded in the last ten days.

H. H. Simmons, president of the exchange, said tonight he had no statement to make on the break. He said he had heard nothing of a rumored leak on the Interstate Commerce Commission's adverse decision on the Nickel Plate Railroad's application to complete a billion-dollar railroad merger. The news of the decision reached the exchange through the regular channels, so far as he knew, and came after the market closed.

DEFICIT CHARGED TO
INSURANCE EXCHANGE
(BY A. P. NIGHT WIRE)
SAN FRANCISCO, March 2.—The deficit totaling \$177,437.54 was charged today to the Old & Butler Inter-Insurance Exchange of San Francisco by Charles R. Dietrich, State Insurance Commissioner, who is seeking the reestablishment of the firm.

The case was continued by Superior Judge Graham until the 5th inst., upon request of the firm's attorney. The judge agreed to the continuance after counsel had assured him that holders of cancelled policies would be reimbursed.

Through John H. Riddan, special counsel to the commission, Dietrich further charged that numerous policyholders had complained that the firm was cancelling policies in a wholesale manner and that insured premiums were not being returned. Dietrich said that the company's shortage was largely due to borrowing at high interest to meet legal obligations. He declared that the firm had borrowed \$143,650 at from 8 to 10 per cent.

The Commissioner listed the shortage as \$177,437.54 in required reserves and \$214,899.73 as contingent liability and deficit. He said that excessive salaries paid to officers and the upkeep of expensive offices in various parts of the State partly explain the shortage.

HIGHWAY PLANNED TO
COOLIDGE DAM SITE
(EXCLUSIVE DISPATCH)
GLOBE (Ariz.) March 2.—A new highway is to be built from Custer, south of Globe, to the site on the Gila River of the new Coolidge Dam. The new route, made necessary by the flooding of the Gila Valley near San Carlos, will save twelve miles of travel to the dam, which will be only twenty-eight miles from Globe. The last mile will be of heavy construction and will cost about \$50,000. Federal and State aid will be given.

MRS. SCOTT
WINS PLEA
FOR DIVORCE
Wife of Congressman from
Michigan Denied Alimony
But Gets Part of Property

(BY A. P. NIGHT WIRE)
DETROIT, March 2.—The contested suit for divorce brought by Mrs. Edna James Scott against Frank D. Scott, Congressman from the Eleventh Michigan District, was concluded here today when Judge Merriam in Circuit Court granted the decree.

Mrs. Scott requested permanent alimony, but a property settlement was effected instead. The settlement was not made public, although Ward H. Peck, attorney for the plaintiff, said the settlement was "more than three times what she was almost forced to accept a year ago."

The quiet movement of today's action was in marked contrast to the bitter exchange of personalities and charges which featured the previous action. Representative Scott died suit for divorce in 1924, and the hearing was begun in December. He charged his wife with misconduct, naming a captain in the air force, a Washington hotel clerk and an automobile salesman to substantiate his accusations.

In a cross-bill, Mrs. Scott accused her husband of general misconduct and of gambling for high stakes. She also charged that he had been guilty of adultery with a woman named Mrs. Scott. The case was heard in the Circuit Court in December, 1924. There are no children.

LUMBERMAN INSPECTS
SITES FOR SAW MILLS
HINES COMPANY WILL EX-
PLOIT 50,000 ACRES OF TIM-
BER IN NEW MEXICO
(EXCLUSIVE DISPATCH)
ALMOGORDO (N. M.) March 2.—An inspection of sites for eight saw mills which are to be installed by the Hines Lumber Company in various parts of the 50,000 acres of timber in the Mesquite Lake National Reservation is being made by J. H. Hines of Memphis, Tenn., president of the company. The contract which the company has entered into with the United States Department of the Interior for exploitation of this tract of timber contains rigid rules of conservation and reforestation. The company shall be subject to a fine of \$10 per acre for each violation. The cause to occur on the property, plus the payment of a double price for all merchantable timber harvested. Continuous lack of precaution will mean a cancellation of the contract, according to rules laid down by the Indian service.

No trees under sixteen inches in diameter, breast high, are to be left at certain distances, and the Indian service officials hold that the mature timber is ready for harvest and that, if left standing, it will not only deteriorate but also will retard the growth of the younger stand.

HEADS INDIAN SERVICE
Hervey B. Foster Placed in Charge
of Field Work by Burke
(EXCLUSIVE DISPATCH)
WASHINGTON, March 2.—The Interior Department today announced a reorganization of the Indian field service by Commissioner of Indian Affairs Burke, affecting the educational, agricultural, industrial and medical activities of the bureau.

The position of general superintendent of Indian affairs has been created, and Hervey B. Foster, formerly chief supervisor of Indian education, has been appointed to the place. The purpose is to centralize educational, agricultural and industrial activities in the field under one head, and to decentralize responsibility and get quicker action on irregularities. All Indian reservations and agencies are being organized into districts with a district superintendent in charge. The general superintendent has been given wide latitude in developing these new activities placed under his supervision.

MILLIONS HOPE BARS WILL FALL

Europeans Watch Progress of Immigration Bill

Soviet Joins Denunciation of Present Restrictions

Poland Anxious to Cut Down Jewish Population

(BY CABLE-EXCLUSIVE DISPATCH) MOSCOW (AP) March 2.—(Upsettled political and economic conditions in Eastern Europe are doing much to promote the desire to emigrate to America among the peoples of these countries, according to officials of the steamship lines. Millions are hoping for the passage by Congress of the Wadsworth-Perkins bill, which would let down the immigration bars and admit relatives of resident aliens who have expressed citizenship intentions.

A large number of would-be emigrants are now living in Russia. According to the estimates of steamship companies that have offices in Moscow and branches in the larger Russian centers, and of the scale of the Jewish relief organizations, more than 2,000,000 Russian Jews want to enter the United States.

The Soviet government, which has joined in the general denunciation of the American immigration law now being waged by the officials and press of the Baltic states, has stated officially that it is anxious to get rid of them. The Jews of Czarist Russia were for so long forbidden to own land that nearly all of them developed into traders. These private traders are now free in the old-time of the Soviet interior trade monopoly, and in some locations have been sufficiently strong to undermine the authority of the Communist regime.

PIONEER TYPE LACKING
When America shut its door to immigrants the Soviet government began to co-operate with the American-Jewish Relief Society, which at one time had large grants of land in Russia upon which to settle Jewish families. The Bolsheviks, however, who were underdeveloped 100 years ago, but the pioneer type of sending immigrants to Siberia, which is now a vast wilderness, is not found in Russia. Last year only 2000 Russian families crossed the Ural Mountains to settle in the rich Siberian provinces.

The situation in Poland is similar to that in Russia. Until America decided to control immigration the Polish government was granting permission to emigrate applicants, but refused the same permission to Polish citizens. American needed people of Polish nationality in Poland in order to swell their ranks in the minority groups.

POLEISH ATTITUDE
A former Polish Minister of the Interior, who has spoken bitterly against the present law, said that America has plenty of room to accommodate a few additional millions, and with unrestricted immigration Poland would soon solve its Jewish problem by inducing its Jewish population of 3,000,000 to migrate to America to join their relatives.

This official was asked if Poland had not succeeded in assimilating Jews after several hundred years of living with them as neighbors, could America be expected to do this in a few generations? He retorted: "It is America's duty to repeal the immigration laws."

Both the Poles and Lithuanians have powerful nationalistic societies in the United States which have united with the Jewish societies in an attempt to obtain passage of the Wadsworth-Perkins bill.

SMTOTHERED TO DEATH
(EXCLUSIVE DISPATCH) VANCOUVER (B. C.) March 2.—In an effort to dislodge congested sawdust from a chute in the engine room of Hanbury's sawmill here, a Maltese, assistant foreman, was caught under an avalanche of the dust and refused. No one saw the accident and the young man was smothered to death.

RADIO CARRIES HEART BEATS

Thousands Listen in on Unique Tests

Broadcasting Across the Nation

Catherine Carroll, patient, and Mabel Miller, nurse, in broadcasting room.

(EXCLUSIVE DISPATCH) CINCINNATI, March 2.—Beating of a human heart, broadcast from the stage of the University of Cincinnati Medical College was heard by thousands of radio listeners throughout the country last week.

MIDDLE WEST NEWS IN BRIEF

(EXCLUSIVE DISPATCH)

DES MOINES, March 2.—Receipt of a \$10,000 gift from Mr. and Mrs. John C. Hay of Hollywood, Cal., to establish a memorial at Drake University for Harriet Drake Kirkham Hay has been announced by E. C. Lytton, manager of the university's endowment campaign. Mr. Lytton also announced the receipt of a \$1000 gift from an anonymous merchant of this city.

DETROIT, March 2.—Word from Grand Rapids says a reward of \$1000 will be paid for apprehension of every bank bandit alive or lawfully killed while in the act of robbing any of the 113 banks of Great Michigan Bankers' Association. The association banks in eleven Western Michigan counties today display posters advertising substantial rewards, dead or alive, for all bandits caught within their territory.

An illness which extended over a period of just six days, for the death last night of Attorney Charles O. Smedley, 65 years of age, Grand Rapids, who began his practice of law there in 1889. For many years he was the senior member of the law firm of Smedley, Linney & Shevlin.

KANSAS CITY, March 2.—Charles G. Burton, 79, former National Commander and State Commander of the O.A.R., died at his home, the Chatham Hotel, 3701 Broadway. His death resulted from acute kidney trouble following an illness of one week.

ST. LOUIS, March 2.—The newly completed country home of Virgil A. Lewis, until recently vice-president of the Grand Avenue Bank on the Ladue road, just west of the Warson road, was destroyed by fire of undetermined origin with an estimated loss of \$50,000.

ST. LOUIS, March 2.—James A. Houchins, twice Democratic candidate for nomination for the governorship of Missouri, gave \$10,000 bond before United States Commission Atkins on a charge of using the mails to further a scheme to defraud in connection with the operation of the Western Bond and Mortgage Company.

ST. LOUIS, March 2.—Dr. Henry W. Krieger, a practicing physician here for forty years, died at his home, 4573 Athlone avenue, of pneumonia following a year's illness. He was 67 years of age and a graduate of the class of 1885 of the old St. Louis Medical School.

ST. LOUIS, March 2.—Albert B. Groves, architect, who died November 30, last, left on estate valued at \$867,748. Mr. Groves left his estate to his widow, Mrs. Clara Groves, 5419 Maple avenue, after bequeathing \$1 to each of five children.

INDIANAPOLIS, March 2.—Rev. Matthew F. Smith, pastor of the First Presbyterian Church, who underwent an operation at the Methodist Hospital last week, is dead.

INDIANAPOLIS, March 2.—Mrs. Nise Alexander, 81 years of age, widow of Joseph Alexander, for many years a leading citizen of Bloomington, died last night. Mrs. Alexander was born and reared in Bloomington and played a prominent part in the social life of the city. She was a member of the First Christian Church.

YANKEE FILMS LEAD IN BRITAIN

English Producers Object to "Hollywood Yoke"

Lord Ashfield Opposed to Legislative Remedy

But Sees Harm in Block Booking System

(BY CABLE AND ASSOCIATED PRESS) LONDON, March 2.—The Hollywood "Yoke" is the way the British film producers describe the American film ascendancy in Great Britain against which British interests are battling.

One billion persons are attending the 4900 film houses in the islands every year and 85 per cent of the pictures they see are American-made. In the British colonies American pictures have even a stronger hold.

Therein the British producers see a threat to British culture, even to British civilization, if one may believe all the fuss which the trade is making through the press. "Malaya" rubber yoke under which the people of the United States are awaking is not producing half the outcry that is emitted by press agents of the British film industry.

Hollywood manners, Hollywood slang—everything from Hollywood except the American accent—are being grafted on the British nation, these agents warn. But far more temperate voices are heard. Lord Ashfield, who is head of the organization controlling more film theaters than any other in England, is official spokesman for the majority of theater-owners who want no record in opposition to the plan to force British-made films upon the public by means of legislation. He says the public can not be forced to pay to see films which it does not like.

However, he is much opposed to the block system of booking, which ties theaters up to take a certain number of pictures in order to get features which it must have.

Col. Vernon Willey, president of the Federation of British Industries, believes British films will never have a fair chance in British houses until this system is broken up and a special quota of British films required to be in every picture program. He has the backing of British film manufacturers who have not been able to compete in their home market with the American product.

BARON SUMITOMO, TOKIO BANKER, DIES

(BY CABLE AND ASSOCIATED PRESS) TOKIO, March 2.—Baron Kichisaburo Sumitomo, brother of Prince Salami, one of the elder statesmen, who has been ill for some time, died today. He was president of the Sumitomo Bank and many other companies, and was accounted one of Japan's wealthiest citizens.

KANSAS CITY, March 2.—Charles G. Burton, 79, former National Commander and State Commander of the O.A.R., died at his home, the Chatham Hotel, 3701 Broadway. His death resulted from acute kidney trouble following an illness of one week.

ST. LOUIS, March 2.—The newly completed country home of Virgil A. Lewis, until recently vice-president of the Grand Avenue Bank on the Ladue road, just west of the Warson road, was destroyed by fire of undetermined origin with an estimated loss of \$50,000.

PADDOCK COMING HERE TO BREAK SPRINT MARK

WELTER CHAMP IN HOT WATER

New York Commission Demands Action This Month

Tommy Milligan is Named as Mickey's Opponent

Bob Gets Return Shot at Title in May

(BY A. P. NIGHT WIRE)

NEW YORK, March 2.—The New York Athletic Commission today announced that it has decided to get the long deferred fight with Mickey Walker for the welterweight championship.

Although no formal action was taken, the commission today announced that the fight would be requested to take place by March 21.

The only fight in this plan is that Milligan has arranged to sail for home within a week, fulfilling his last engagement here tomorrow night against George Lavine.

When the Scotch battler remains here, he may lose his recognition as a champion.

Walker's last title bout was with Dave Rhoda, September 21, 1925.

BOB POSTED FOR MIDDLEWEIGHT GO

(BY A. P. NIGHT WIRE)

NEW YORK, March 2.—Harry Greb, who lost his middleweight title to Tiger Flowers, Georgia, last Friday night, today signed articles to meet Flowers in a return battle for the championship at Madison Square Garden on May 21.

The signing of Greb clinches the match, since McMahon had already secured Flowers's signature to a blank contract, re-

turning him to defend his newly regained title against an outstanding challenger.

Flowing of articles by Greb shows within two hours after the Pittsburgh fighter's formal challenge to his conqueror had been rejected by the State Athletic Commission, which has the title since every six months. The customary bond

BEEES SHOW PLENTY OF PEPPER IN SECOND HOLLYWOOD WORKOUT

(BY ROBERT RAY)

Pepper and lots of it is being exhibited by the Hollywood Bees in their daily workouts at Gilmore Park these days.

Oscar Vitt, hustling manager of the Bees, has all his players showing lots of spirit and expects them to round in to shape in no time. Just at present, the Bees are in the sore - muscle stage of the spring training grind, but they are showing no letup in their activities and as soon as they work out the soreness will be all ready to go until October.

Five more players joined Bill Lane's squad yesterday and now there are only nine of the squad yet to arrive.

Charley Gooch, who wound up the season at third base and

TROJANS LEAVE FOR NORTH

Cardinal and Gold Nine to Meet Cards in Series at Palo Alto Friday and Saturday

With the prospect of facing the toughest opposition of the season in the first game of the year, Coach Sam Crawford and his Trojan baseball artists leave tomorrow night for Palo Alto, where the local cardinals, Stanford Friday and Saturday. Despite the loss of Ernie Nevers, the Cardinal nine is reputed to be a strong one, which promises plenty of opposition for the U.S.C. nine.

With one victory already under their belts, the Trojans are hopeful of continuing a winning season. The victory was scored at the expense of the L.A.A.C. last week, the Trojans winning, 7 to 6, in eleven innings of hectic and haphazard baseball.

For twirlers, Crawford has Ted Sahlgren, Slim Gorman, Leo Guisard and Harold Lukin, Manuel Laramie, a southpaw, is also seeking a berth. Sahlgren and Gorman twirled the game with the Mercuries. Thirteen hits were registered off their deliveries.

The catching department is

RETURN TO JUDGE SYSTEM IN CALIFORNIA RINGS ILLEGAL

(EXCLUSIVE DISPATCH)

SACRAMENTO, March 2.—Any attempt by the State Athletic Commission to eliminate boxing contests by returning to the old system of judges would be ineffective under the State boxing law, the State Attorney-General's office has informed Commissioner William H. Hanlon.

The commission, which governs the boxing game in California, was considering discarding the referee decision and returning to the method of deciding contests by the votes of judges, but, according to Dep. Atty.-Gen. Thomas H. Christiansen, the law does not contemplate the use of judges.

While judges could be used, Christiansen informed Hanlon, a careful study of the boxing law, the referee official-

REPORT TO GOVERNOR SHOWS BOXING IS NOT DEADLY SPORT

(BY A. P. NIGHT WIRE)

SACRAMENTO, March 2.—Boxing is not a deadly game in California, the State Athletic Commission advised Gov. Richardson today in a report showing that only two of the 2346 boxers participating in bouts in this State last year died under circumstances seeming to connect their deaths with boxing. Even in these cases, states the report, a careful investigation revealed that though the men died within twenty-four hours after fighting there was nothing to show that death had been caused by the fighting.

ANGELS RELEASE M'AULEY

Shortstop Will Probably Catch on With Another Coast Loop Club; Yannigans Tri mRegulats

James "Power-house" McAuley, who is still a Class AA shortstop, joined the ranks of the ex-Angels yesterday when he was given his unconditional release by President Joe Patrick. The Angels had planned to make a deal that would send McAuley out of the league, but the Missions refused to waive on Jimmy as he was given his unconditional release. McAuley can now make a deal for himself and it is quite likely that he will grab on with some other Coast club as there is a dearth of shortstops in the loop.

With Johnny Mitchell slated to hold down the regular shortstop berth, Gale Staley, a cinch for second base, and Ray Jacobs on third, and Ed Hemingway available for utility or first-base duty, there was no room for McAuley on the Angel line-up. The Seals have four youngsters trying out for the shortstop position left vacant by Hal Rhyne's graduation to the Pittsburgh Pirates and it wouldn't be a bad idea for Bert Ellison to sign McAuley so that he would be protected should some of the rookies come through.

The Yannigans evoked the same with the Regulars yesterday.

TRAJANS PREP FOR H.A.C. MEET

Expect Hot Battle When Two Good Teams Tangle

Coliseum Scene of Track and Field Saturday Afternoon

Movie City Club Has Strong Array of Stars

Coach Dean Cromwell is going about the preparation for the meet with the Hollywood Athletic Club in the Coliseum Saturday afternoon in easy fashion. With the majority of his stars already displaying midseason form, Cromwell doesn't intend to rest any of his men go into the meet.

Ed House, sprinter de luxe, is getting over his minor attack of the "flu" in neat fashion, and should be in good form again to battle Keith and Anderson. The day, Allen Rose, high jumper, who was also suffering from a slight indisposition, is likewise expected to be at his best form.

Hollywood has a strong array of talent. Besides Lloyd, such able performers as Anderson, Johnny Woods, Howard Torkelson, Van Marz, Van Judah and the like are in the movie city club. The California meet is scheduled for the 20th inst., and Cromwell hopes to have every one of his men in the best of condition for that date. A week from Saturday is an open date for the Trajans, with the intercollegiate meet scheduled for Friday. The meet this Saturday and the lay-off following are expected to have the men ready for their best efforts against the Bears.

HELEN WILLS EASY WINNER

(Continued from First Page)

versary gain a game if possible to prevent it.

Heretofore, Miss Wills has played just hard enough to win, apparently not caring whether or not she vanquished her opponent in love sets.

Sanatoria De Alvarez of Spain, one of the two seeded players in the lower half, defeated Miss Thomas of England, 6-1, 6-4.

LENGLE DUE IN ITALY TOMORROW

(BY CABLE AND ASSOCIATED PRESS)

MILAN (Italy) March 2.—S. Lenegle, French law-tennis champion, is expected to arrive here Thursday, proceeding to an Italian Alpine resort for a rest.

TROJAN NINE TO GO NORTH

(Continued from First Page)

more than well taken care of. Web Gilman, captain of last season's football team; Curtis Barnes, also of the football team; and Walter Scott and Walter Moore are two such with varied experience, are the eligibles.

McQuigg seems to have landed the call at first, which will see Ferdinand Manlove to the outfield.

Matt Moore and Alvin Welch will probably circulate around the keystone on a mission year, is making a strong bid for honors. Vic Owens, something of a natural-born ball player, has clinched the third-base job.

In the outer gardens will be Capt. Adams, himself in person, Coney Galindo, the clean-up man, and either Manlove or Pullen.

Cardinal, Runstar Warm Up Tomorrow

(EXCLUSIVE DISPATCH)

TIA JUANA RACE TRACK, March 2.—Rubea Rouge, running for C. B. Irwin, finished two and a half lengths in front of Prince Tili in the seventh race, feature event, here today at a mile and a quarter. Reap finished a close second.

Rouge was out on the track at the half, and was sharply pointed off, forcing Johnny Munk to pull him up. He made a dash for the wire, but was forced to the back of the pack by the leaders. Besides Lloyd, such able performers as Anderson, Johnny Woods, Howard Torkelson, Van Marz, Van Judah and the like are in the movie city club. The California meet is scheduled for the 20th inst., and Cromwell hopes to have every one of his men in the best of condition for that date. A week from Saturday is an open date for the Trajans, with the intercollegiate meet scheduled for Friday. The meet this Saturday and the lay-off following are expected to have the men ready for their best efforts against the Bears.

HELEN WILLS EASY WINNER

versary gain a game if possible to prevent it.

Heretofore, Miss Wills has played just hard enough to win, apparently not caring whether or not she vanquished her opponent in love sets.

Sanatoria De Alvarez of Spain, one of the two seeded players in the lower half, defeated Miss Thomas of England, 6-1, 6-4.

LENGLE DUE IN ITALY TOMORROW

more than well taken care of. Web Gilman, captain of last season's football team; Curtis Barnes, also of the football team; and Walter Scott and Walter Moore are two such with varied experience, are the eligibles.

McQuigg seems to have landed the call at first, which will see Ferdinand Manlove to the outfield.

Matt Moore and Alvin Welch will probably circulate around the keystone on a mission year, is making a strong bid for honors. Vic Owens, something of a natural-born ball player, has clinched the third-base job.

In the outer gardens will be Capt. Adams, himself in person, Coney Galindo, the clean-up man, and either Manlove or Pullen.

CONFERENCE MEETS ON TAP

Occidental, Caltech Battle for Track Honors; Branch, Pomona Scheduled to Mix Saturday

Track-and-field activities in the Southern California Conference have shown marked increase during the past week, with two of the most important dual meets of the year scheduled for Saturday afternoon. Interest is evenly divided between the Caltech-Occidental fricas on the Bengal track and the Southern Branch-Pomona meet on Moore Field.

Coach Joe Pipal's Oxy squad, favorite to win the championship, is slated to find Caltech a choice but tough morsel as a conference foe.

Henry LeFebvre, demon full-back of the U.S.C. Thundering Herd, was thrown for a loss the other day, and Henry is glad of it. The enemy in this case, was Dan Cupid, that all-around athlete, who knocks out prize fighters, acts home runs off pitchers, noses out jockeys, and throws a V.I. back for losses.

There'll be no "Alphonse-Gaston" act at the Olympic Auditorium this evening when Jimmy McLarnin and Joey Sangor battle ten rounds to a decision. One of the two is scheduled to give up his place in the local boxing limelight as a result of the fray and neither entertains any such ambition.

From a standpoint of interest, this bout should be one of the greatest ever lined up by Matchmaker Joe Levy for the Auditorium. Both McLarnin and Sangor have a reputation for unexciting action, few clinches and 1200 per cent effort.

Unfortunately they must travel a road that forks out in two different directions this evening. Fame and fortune await the winner; temporary local oblivion, the loser.

IS LITTLE IDOL

McLarnin has been a Los Angeles idol ever since "Pop" Foster first brought him out several seasons ago, a pleasant-faced Irish kid, in knee-patches. His boxing ability was so masterful that experts nation-wide hailed him as

CHUCKLES from LIFE

During the house shortage the Browns forgot to leave a guard in charge of their college while they went to the movies.

NO SPORTING CHANCE

ONCE commented upon the conventional sour demeanor of bank attendants. Be they as they may, for sheer, inherent, unswerving, unchangeable you can't beat a sporting-goods clerk. Try it—if you're fool enough.

Suppose you have come in blithely with every intention of buying a new brassie. If you can detach a clerk from his clique of staid, silent men, tell him so.

"I want to buy a brassie," you say.

"Want a brassie—er?" says the clerk, commiseratingly, giving the impression that he thinks you'd be far better off on a nice hospital cot with day and night nurses in attendance. Shaking his head sadly, he leads you to them.

"What do you think of this one?" you suggest.

"Oh, it's all right—if you like that kind."

"Well, what's the matter with it?"

"It's all right," he says. "You can make as big an idiot of yourself with that as with any other," he implies.

"Perhaps," you challenge him, "you'd better pick one out."

Laughingly, he selects a fool that has a face in rainbow-colored ivory-oid, a crumpled rubber grip, a shaft and a loud talker. "This is

the kind I use," he says. The dirty liar.

"How much is this one?" you ask him, though you don't like the balance and it is too long.

"Eighteen-fifty," he replies, as though that had nothing to do with it. Then he moves off, too utterly bored to make any further pretense of interest. Buy it or don't—but get out of the store as quickly as possible. Completely demoralized, of course you take it.

This little sample will apply to anything in the line of athletic activity, either for tennis, or swimming, or hurdling, or riding a horse. I don't care what sort of pasty-faced, underbred little Pa Potter the clerk is, he can always register the conscious superiority of an Olympic champion.

I intend to invest a new game, shortly, to be played with a sporting-goods clerk as opponent. The equipment will consist of a red-hot poker, to be used by the customer as he meets it. It ought to be a wild, furious and active encounter, pleasantly one-sided from the start. And I expect it to achieve instantaneous, widespread popularity. Henry William Hansmann.

The peak of musical efficiency will have been reached when somebody finds a way to run rolls of perforated paper through a saxophone.

ARNOLD LETTER NETS HUGE SUM

Traitor Believed Plans Would Have Ended War

Total of \$3900 Paid for One Communication

Asked That Provincial Troops be Made British

(BY A. P. NIGHT WIRE)
NEW YORK, March 2.—Benedict Arnold believed that had he been able to carry out his plans for the betrayal of America, the Revolutionary War would have been brought to an end and favorable to the British and he so expressed himself in a letter written in 1783.

Little did the traitor think at the time he wrote Thomas Townsend, one of his Majesty's Principal Secretaries of State, asking that he and his officers in a provincial corps be put on the British establishment, that the communication later would be sold in America for \$3900.

The price, which was obtained at an American Art Gallery sale, was a record one and would have been a small fortune at the time Arnold was in dire need of funds.

Addressed as "The Memorial of Benedict Arnold," the letter follows: "Humbly sheweth that your Memorialist influenced by sentiments of loyalty to the King and attachment to the British Constitution has sacrificed a handsome property in America, and prospects that were extremely flattering, and at the most eminent hazard of his life co-operated with Sir Henry Clinton, Commander-in-Chief of the British Army in America, his intentions and measures being discovered, before they could be brought to the happy issue which promised to put a favorable end to the war in America. He was so fortunate as to escape from the Americans, and having joined the British Army at New York he exerted himself in raising a Provincial Corps, at a very great expense

HIGH BLOOD PRESSURE

Quickly Corrected by Pleasant-Tasting Natural Sap of Mexican Maguay Plant

Warnings. Cold hands and feet, dizziness, vertigo, headache, high blood pressure, nervousness, palpitations, etc. Agmat, raw concentrated Maguay plant sap from Mexico, has relieved practically every case of high blood pressure treated. Many have been rejected for life insurance because of high blood pressure. Agmat has long been used by the people of Mexico to cure high blood pressure. It is a natural remedy, does not contain drugs or alcohol. Agmat is a pleasant-tasting natural sap of the Mexican Maguay plant, which contains vitamins, natural yeasts and minerals, which "build back" the system so failing organs again function with growing strength. Agmat contains Agmatin, a form of sweet found only in the Maguay, which is easily assimilated and creates vital energy that overcomes disease. Doctors recommend it. Hundreds of "cure" certificates received.

Investigate remarkable results secured in most stubborn cases of high blood pressure and the disorders of which it is a symptom. Get complete information and taste Agmat free at any of the following: LOS ANGELES: 315 Hollingsworth Bldg., 6th and Hill and 338 So. Hill. HOLLYWOOD: 415 Hollywood Bldg., 723 Security Bank Bldg.—or fill in and mail coupon today for valuable free literature.

GARBAGE BURNER JOINS OUTLAWS

Ancient Bay City Incinerator, Hit by Modern Craze, Makes Bootleg

(EXCLUSIVE DISPATCH)
SAN FRANCISCO, March 2.—The famous old garbage incinerator which the city turned over to garbage men when it was found unprofitable for a municipality to compete with professional scavengers, took on new sensational glory today.

It was found to be turning out high-pressure moonshine instead of its intended waste product. City Engineer O'Shaughnessy and his assistants, Clyde E. Healy and E. P. Jones, made the discovery. They found a 100-gallon still operating to full capacity.

Tony List, who appeared to be in charge of the incinerator for the garbage men, was looking on when the city officials uncovered the still. He was arrested.

His arrest, which was obtained at an American Art Gallery sale, was a record one and would have been a small fortune at the time Arnold was in dire need of funds.

Addressed as "The Memorial of Benedict Arnold," the letter follows: "Humbly sheweth that your Memorialist influenced by sentiments of loyalty to the King and attachment to the British Constitution has sacrificed a handsome property in America, and prospects that were extremely flattering, and at the most eminent hazard of his life co-operated with Sir Henry Clinton, Commander-in-Chief of the British Army in America, his intentions and measures being discovered, before they could be brought to the happy issue which promised to put a favorable end to the war in America. He was so fortunate as to escape from the Americans, and having joined the British Army at New York he exerted himself in raising a Provincial Corps, at a very great expense

ARIZONA REPORTS TWO CASES OF SMALLPOX

RELATIVE IMMUNITY CREDITED TO GENERAL VACCINATION POLICY

(EXCLUSIVE DISPATCH)
PHOENIX, March 2.—Not for years has as little smallpox been known in Arizona, as during the past winter. The State Board of Health reports that only two cases, both of them late prostrations from the ordinary form of the disease, which usually comes across the border from Mexico. This relative immunity is accredited to general vaccination, such as was urged in Tucson three years ago. Since that time, Tucson has not had a case of locally contracted smallpox.

A wave of influenza of mild type is sweeping over the State, though only about 200 cases have been reported to the Board of Health. Health reports that only two cases, both of them late prostrations from the ordinary form of the disease, which usually comes across the border from Mexico. This relative immunity is accredited to general vaccination, such as was urged in Tucson three years ago. Since that time, Tucson has not had a case of locally contracted smallpox.

Investigate remarkable results secured in most stubborn cases of high blood pressure and the disorders of which it is a symptom. HANGMAN WINS DEATH RACE

Notorious Spy Traverses Half the World to See Condemned Son, But Arrives Too Late

(BY CABLE AND ASSOCIATED PRESS)
LONDON, March 2.—A notorious spy's race with the hangman was lost today, as John Lincoln, alias John Lincoln, was executed for murder without having seen his father, Ignatius Tribich Lincoln, exiled former Member of Parliament, who had started from the Far East when he heard of the death sentence. He wanted to bid his son good-by.

The father arrived in France yesterday, but had not appeared at Shepton Mallet Prison when the time for the execution arrived. The son, a 23-year-old artilleryman, convicted of killing a householder during a burglary Christmas Eve, left a letter for his father.

The authorities refused to delay the execution as sought in petitions signed by 50,000 persons. Lincoln's victim was Edward Richards, a traveling salesman for a brewery.

ADMITTS SHOOTING
Lincoln, who was a member of the Royal Horse Artillery, invaded the home of Richards, accompanied by Ian Stewart, 20 years of age, to the premises. Richards was shot when he returned and found the young men in his home. Stewart was acquitted. In a letter to his sweetheart, from jail, Lincoln admitted that he fired the fatal shot.

"I never have nurtured an evil intent against any man," said the letter, "but I was provoked. I must be paid for. What the result will be I cannot be certain. Whatever it is, I can take it, so you, my darling, will have to bear much." Lincoln yesterday received visits from his mother and his sweetheart, Lillian Brown. Many persons lingered about the jail until after midnight, expecting the arrival of the father. The hanging was at 8 a.m., as scheduled.

Ignatius Tribich Lincoln, born in New York in 1816, was a spy for Germany. In 1916 he was imprisoned in London for forgery and later was deported.

GERMAN SPY
Tribich Lincoln, the father, worked for the German cause during the World War, playing his role of spy in England, the United States, Germany, Hungary and Austria. He was originally an Austrian subject, but later became a naturalized Englishman. He was extradited from New York to England in 1916, tried by the British on a charge of forgery and upon the conclusion of a brief prison sentence was deported to his native land.

Later he went to Germany, where he was in charge of the censorship under the short-lived Kapp regime. Fleeing to Austria upon the collapse of the Kapp government, he was expelled from that country in 1921 for treasonable activities.

GRIEVES FOR PAST
He was in Colombo, Ceylon, when news reached him that his son had been convicted of murder and sentenced to death. Filled with remorse, he is reported to have written to the son:

"My sins seem to have been visited upon your head and I pray you will forgive me before you die. If I had been a better father this might not have happened and I am filled with a terrible regret for the past."

Ignatius went to his death without visible emotion, standing rigidly at attention on the scaffold as the noose was adjusted. Until late last night he had waited in the death cell for his father's promised visit and when told that it was impossible for him to arrive he broke down and wept.

HONORABLE DISCHARGE BILL PASSES HOUSE
(BY A. P. NIGHT WIRE)
WASHINGTON, March 2.—Granting of honorable discharges to soldiers who deserted during the World War and were dismissed because of misrepresentation of age, is provided in a bill passed by the House. The measure was sponsored by Representative Recca, Republican, Tennessee.

PORTLAND FOE OF RIVER SPAN
Bridge Project Held Menace to Shipping
Detour of Tourist Traffic Also Feared

Rose City Fights Plan for Longview Bridge

(EXCLUSIVE DISPATCH)
PORTLAND (Or.) March 2.—Portland is making a determined fight to prevent the erection of a toll bridge across the Columbia River between Longview, Wash., and Rainier, Or. The project, in its present form, is deemed here as a serious menace to Portland's ocean shipping and all interests are combining to prevent its construction unless it shall be sufficiently high to clear the stage of the Alsea River at this city.

At present the only bridge across the lower Columbia is between Portland and Vancouver, carrying Pacific Highway traffic. Such a connection would be the same location. Both these structures are above the mouth of the Willamette River, so that shipping between Portland and Longview is not affected by them. Longview is forty miles on toward the ocean where the great ocean carriers need a clear channel if they are to visit this port.

WISHERS BRIDGE
Longview, the lumbering city that grew almost in a night, is demanding a bridge to give it connection with the Columbia River Highway on the south side of that city. Such a connection would be particularly important after the Roosevelt Highway is completed. The Roosevelt Highway will follow the Oregon coast line and connect with the Redwood Highway in California. The Longview bridge were erected tourists could come up the coast, cross the Columbia at Longview and continue on north to Seattle without visiting Portland. This is a condition that is not pleasing to Portlanders, but it is on the grounds of a menace to navigation that the bridge is being opposed.

The government has granted a loan for the erection of the bridge, but it is conditioned on the approval of the plans by the State Highway Commission of Oregon and Washington. The Washington commission has already approved these plans but the Oregon commission is far from doing so. Oregon laws also put control over the erection of a bridge under the jurisdiction of port authorities and the Port of Portland commission has gone on record as opposed to the project.

Longview has submitted plans for the bridge, a bridge having a height of 175 feet for a clearance over the Columbia. This is based on the height of the famous Quebec bridge, one of the largest bridges in the world. The bridge would cross the main navigable channel between a large city and the sea.

The Port of Portland commission has said that it would be satisfied with a bridge having a height of 175 feet for a clearance over the Columbia. This is based on the height of the famous Quebec bridge, one of the largest bridges in the world. The bridge would cross the main navigable channel between a large city and the sea.

RELIEF FOR FLOOD TOWN DRAWS NEAR

Threatened Water Famine Thought Stayed as River Recedes at Oil City

(BY A. P. NIGHT WIRE)
OIL CITY (Pa.) March 2.—Prospects of relief from a threatened water famine and reports of falling river stages brought cheer today to flood-menaced residents of Oil City.

After several hours of complete water famine last night due to the flooding of the pumps in the municipal waterworks, temporary relief was gained early today when the water level in the city was tapper, providing water for more than 1000 families.

The water level in the pump-house also was lowered from five to two feet. The stage of the Allegheny River at this city last night was 15.8 feet, four feet above the flood mark, but reports from points along the river showed either stationary or falling stages, leading officials to believe the worst of the flood danger has passed. Apprehension was still felt, however, over the danger of the thirty-mile ice gorge, but a drop in temperature, it is believed, would melt the ice, breaking up the ice pack breaking up.

The city schools were closed today due to the water scarcity and relief measures were adopted to keep the City Hospital supplied with water.

END COMES TO RELATIVE OF TIFFANY

Sister-in-Law of Jewelry King Dies at Santa Barbara After Months of Illness

(EXCLUSIVE DISPATCH)
SANTA BARBARA, March 2.—Mrs. Burnett T. Tiffany, sister-in-law of Charles Lewis Tiffany, New York jeweler, died at her home here early this evening. She was the wife of Burnett T. Tiffany, grandson of the founder of the famous New York jewelry concern.

Mrs. Tiffany never recovered from a stroke which she suffered while returning from a trip to Egypt last year. She was 60 years of age and had resided here for sixteen years.

Mrs. Tiffany was born in Jackson, Mich. She was a leader in Red Cross war work and a prominent member of Trinity Episcopal Church.

She leaves her husband, Burnett T. Tiffany of Santa Barbara, and two sisters, Mrs. R. L. La Rue of Santa Barbara and Mrs. William J. Darling of Detroit.

FARMERS SUBMIT RELIEF VIEWS TO COOLIDGE TODAY
(BY A. P. NIGHT WIRE)
WASHINGTON, March 2.—Delegates from eleven Middle-Western States, acting under instructions from the recent Des Moines agricultural conference, will present their views on farm relief to the President and the Secretary of Agriculture tomorrow. They have been allotted one hour of the President's time, beginning at 10:30 a.m. and immediately after the conference at the White House they will meet with Secretary J. A. Borah.

Leaders of the farm delegates will tell the President and Secretary J. A. Borah that, while they are not insistent on any particular form of farm relief, they are united in their belief that justice and sound economic policy require that the farmers shall have their economic status raised to the level of other economic groups.

Hearings on farm-relief legislation before the House Agriculture Committee were postponed until Thursday.

FORD SUIT DELAYED
Libel Case Against Manufacturer Not Ready to Proceed

(BY A. P. NIGHT WIRE)
DETROIT (Mich.) March 2.—Adjournment was taken in United States District Court here today before arguments were concluded on the request for a continuance of the suit of Aaron Sapro, prominent in the development of cooperative marketing, against Henry Ford, automobile manufacturer. Sapro asks \$1,000,000 damages for asserted libelous statements appearing in the Dearborn Independent, controlled by Ford.

Ford, automobile manufacturer, appeared before the court today as one of counsel for Ford to argue for a continuance of the case, which is set for the March term of court. The Senator said the defense needed more time to prepare their case and take depositions from witnesses, some of them living as far as California.

PARK ADDITIONS BOUGHT
(BY A. P. NIGHT WIRE)
WASHINGTON, March 2.—Enlargement of the Grand Canyon and Yellowstone national parks was urged by the Interior Department in a bill presented today by Chairman S. W. Hays of the House Public Lands Committee. The addition of adjacent lands is designed to add new scenic attractions to these parks and arrange for more natural boundaries to follow peculiarities of the terrain.

TWO RANCHERS KILLED
(EXCLUSIVE DISPATCH)
NOALLES (Ariz.) March 2.—Joaquin Vagarrano, a Patagonian rancher, was killed near here, being thrown from his horse by a runaway team. Another rancher, Francisco Arballo, met death by a fall into his well his head hitting a projecting pipe.

KILLED UNDER TRUCK
(EXCLUSIVE DISPATCH)
PRINCETON (Ariz.) March 2.—John V. Burison, foreman of the Coburn Cattle Company, was killed under a truck which he had been driving, which overturned at a curve on the Black Canyon road.

DEATH FLIGHT FILM SEIZED ON STEAMER
(BY CABLE-EXCLUSIVE DISPATCH)
PARIS, March 2.—An attempt to commercialize the tragedy resulting from the death of the French aviator who essayed to fly under the first stage of the Eiffel Tower failed today when the film of the accident, which was being hurried to the United States, was seized on the steamship France at sea. An American film company is said to have bought the death film and the idea of the exploitation of the scene in which the aviator was burned alive has stirred up such protests that the French authorities ordered the capture of the France to seize the film and bring it back to the custody of the court. The aviator, Gustave Galtier, made the daring flight on February 24, last, without obtaining the permission of his superior officers.

GIRL MURDER ON WEDDING

Enticed to Lonely Prior to Ceremony

Fiance of Oklahoma Held as Asserted

Full Confession Said

PORTLAND FOE OF RIVER SPAN
Bridge Project Held Menace to Shipping
Detour of Tourist Traffic Also Feared

Rose City Fights Plan for Longview Bridge

(EXCLUSIVE DISPATCH)
PORTLAND (Or.) March 2.—Portland is making a determined fight to prevent the erection of a toll bridge across the Columbia River between Longview, Wash., and Rainier, Or. The project, in its present form, is deemed here as a serious menace to Portland's ocean shipping and all interests are combining to prevent its construction unless it shall be sufficiently high to clear the stage of the Alsea River at this city.

At present the only bridge across the lower Columbia is between Portland and Vancouver, carrying Pacific Highway traffic. Such a connection would be the same location. Both these structures are above the mouth of the Willamette River, so that shipping between Portland and Longview is not affected by them. Longview is forty miles on toward the ocean where the great ocean carriers need a clear channel if they are to visit this port.

The Port of Portland commission has said that it would be satisfied with a bridge having a height of 175 feet for a clearance over the Columbia. This is based on the height of the famous Quebec bridge, one of the largest bridges in the world. The bridge would cross the main navigable channel between a large city and the sea.

John D. Bestows Dime on Girl for Sportsmanship

(BY A. P. NIGHT WIRE)
ORMOND BEACH (Fla.) March 2.—For her display of great sportsmanship, Miss Gladys Selick, Glen Ridge, N. J., has been awarded one of John D. Rockefeller's famous dimes and has been invited to form a daily three-course dinner with the aged oil magnate and General Adolphus A. Selick, 93 years of age. Their play ended all square today and a play-off is slated for tomorrow.

Miss Selick obtained her place in the good graces of Mr. Rockefeller when, "knowing she'd be beaten," refused to default when she drew Miss Helen Payson, Portland, Me., star in the women's South Atlantic golf championship here last week.

DEATH FLIGHT FILM SEIZED ON STEAMER
(BY CABLE-EXCLUSIVE DISPATCH)
PARIS, March 2.—An attempt to commercialize the tragedy resulting from the death of the French aviator who essayed to fly under the first stage of the Eiffel Tower failed today when the film of the accident, which was being hurried to the United States, was seized on the steamship France at sea. An American film company is said to have bought the death film and the idea of the exploitation of the scene in which the aviator was burned alive has stirred up such protests that the French authorities ordered the capture of the France to seize the film and bring it back to the custody of the court. The aviator, Gustave Galtier, made the daring flight on February 24, last, without obtaining the permission of his superior officers.

COLOMBIA OFFERING OUT SOON

South American Republic Securities Expected on Market This Week

Negotiations for the purchase of an issue of \$6,000,000 twenty-year external secured 7 1/2% per annum bonds of one of the most important departments of the Republic of Colombia have been completed by R. W. W. & Co., and Baker, Kallong & Co., according to information current in New York banking circles. It is expected that a nation-wide offering of this issue will be made within a few days.

The Republic of Colombia ranks third in population of the states of South America and occupies an area of more than 475,000 square miles, or more than all the states of the Atlantic seaboard from Maine to Florida. It is the world's largest producer of platinum and emeralds, and second largest producer of coffee.

The banking system of the Republic is modeled after the United States Federal Reserve system. The Colombian dollar has been one of the most stable of South American currencies, the present position being slightly above par of exchange, the bankers assert.

ADVANCE STEP IN RESEARCH

Formation of Co-operative Society for Gathering Data on California Pioneer Movement

By GLENN PALMER

The establishment of a co-operative association of research men for the purpose of making available more complete and accurate statistics for California is indicative of nation-wide changes that are taking place in the conduct of business.

True to its reputation, California—help the government statisticians to secure sufficient assistance to prepare adequate figures, it will have accomplished a worthy end. Watson which accords from duplication of effort in the gathering of figures under present conditions are everywhere apparent. For example, the telephone company has just completed a house count in Los Angeles, and a new census is now being agitated in several quarters. In Detroit, it is said, the phone count and the census taken with the same machinery at the same time, thus dividing the labor between the two organizations without loss to either. Similar cases of unnecessary duplication of effort will naturally be brought to the attention of an organization with a membership so representative as the California Research Council indicate.

The situation as we find it today and the part that the new association may play in increasing the business efficiency of the state may be illustrated by a few specific cases.

WORK ON WAY

At the recent conference, Walter Bradley of the State Mining Bureau was asked by the Industrial Secretary of the San Diego Chamber of Commerce if there was any way San Diego county could secure a survey of the markets for the minerals she had available. Bradley replied that such a survey could not be made without legislative authorization. Following this revelation Charles F. Knight of the California Development Association arose and reported that his organization was preparing such a survey at the present time. By publishing a catalogue of research agencies and the information they are collecting, the new Research Council may make available a great mass of information that is now hidden from those who are seeking it.

The fusion arising from the incomparability of published figures may be illustrated by conditions existing right here in Los Angeles. Two methods of ascertaining population in off-census periods are from school attendance and voting registrations, but these figures are not comparable because the districts covered by the two are different, and if we should wish to compare either of these figures with the assessed valuations, we would write another difficult because these are based on the 1920 district. In other words our authorized municipal figures are based on at least three separate Los Angeles areas: the school district, the assessment districts, and the voting precincts.

EXAMPLE GIVEN

A case of the limitations of the present government statisticians was brought out at the Los Angeles conference when the Federal statistician connected with the State Department of Agriculture was asked why the crop reports could not be issued in county-by-county form. Mr. Kaufman, the Federal and State agricultural statistician, answered that he was allowed only three statisticians and three clerks to gather and compile figures of agricultural production for a State covering 160 miles of longitude, 800 miles of latitude and three miles of altitude, growing every crop that is grown in any other State. Naturally, with such a force as he has, it is necessary to secure figures by making estimates from questionnaires mailed out. The possibilities of error from such estimates issued by counties would be too great without considerable addition to his force. If the new council can, through promotion,

WALL STREET PARAGRAPHS

Prices Crash in Last Hour Selling Assault on Utility List

(EXCLUSIVE DISPATCH)

(Copyright, 1926, by New York Evening Post, Inc.)

NEW YORK, March 2.—After showing a somewhat better tone in the early part of the day, the stock market today was called upon to absorb another flood of liquidation in the afternoon, under which the list again broke rather badly. During the forenoon a handful of speculative continued under pressure, but selling appeared to have run its course in the general run of stocks. With the turn of the day, however, heavy pressure was brought to bear against the utilities, which the furor of the day was released. Panic selling of these stocks, the last turned out to be a speculative attack, attracted speculators' attention to the list. Stop loss selling was extensive in that limited group, and the weakness again unsettled the general list.

Relaxation in money reflecting the easing of the selling had been proved only a temporary helpful influence. Equipment stocks did better with the general advance, but the selling of the day was firmly in response to the satisfaction of the market for the day. Elsewhere the trend was downward although a slight rally developed toward the finish.

Utilities Break Badly

Just when it appeared that the worst of the selling had been witnessed, and that a rally might get under way, the professionals who had limited their fresh selling operations to a handful of specialties in the forenoon launched a drive against the public utilities stocks. Heavy selling of these shares followed a resounding crash in a few of the recent favorites on the curb, such as American Light, which came down over 20 points. United Light and Power A., which crashed almost 40 points and United Gas Improvement, where a further loss of 20 points was sustained on top of the recent break. On the big board selling pressure was concentrated almost entirely on the Waterworks, driving that stock down almost 10 points while the sensitive liquidation of the day was concentrated on the curb. American and Foreign Power, National Power, North American, Electric Light and Power, and Montana Power carrying them to new lows for the year. Columbia Gas held its own, but the announcement of the proposal to increase the authorized amount of capital stock.

Americana Loco's Report

With the annual report of Americana Locomotive out of the way, the equipment shares showed a decided improvement, holding around 100 points. The reason throughout the day. But the 1925 figures of Loco were every bit as poor as had been expected, showing a deficit of \$500,000 after depreciation, but before preferred dividends.

Steel's Unfilled Orders

With the unfilled tonnage statement of the Steel Corporation on hand at the end of February due at noon next Wednesday, the steel figures in trading figure what that statement will show. About a week ago it was estimated that the company had about 150,000 tons would be disclosed in consequence of the high rate of production. At this time, however, trade circles are not quite so optimistic, the general run of estimates indicates that a reduction of around 300,000 tons in unfilled orders is looked for. If current estimates are approximately correct, the total of business on the books, but unfilled at the end of February, will be around 4,737,800 tons or the lowest since late November, when the forward business aggregated 4,581,780 tons. It will also be roughly 500,000 tons below the total shown at the end of February last year, when the corporation had 5,244,771 tons in unfilled orders on its books.

MAN WHO TOOK RABBIT TO AUSTRALIA DEAD

John R. Collison, who is said to have been the first person to introduce rabbits into Australia, has died at his home at Langley, near Melbourne, Victoria, where he was 85 years of age, was a great traveler in his early days, and owned a large estate in Australia.

CAR LOADINGS GAIN

WASHINGTON, March 2.—The American Railway Association announced tonight that freight-car loadings for the week ending February 20, last, totaled 921,743, an increase of 14,399 over the preceding week.

THE MONITOR

Willis Drake, believed to be the last survivor of the crew of the Monitor, has passed away in Elizabeth, N. J., at the age of 85 years. The Monitor was the first of our Navy had her historic encounter with the Merrimack on March 3, 1862. The Monitor was built at Greenpoint, Long Island, under the supervision of John Ericsson, and was launched January 30, 1862. Considering the same she won, the Monitor's term of life was brief indeed. For within a year after the engagement which brought the "iron vessel" into glory, she foundered (December 31, 1862) in a storm off Cape Hatteras, with the loss of seventeen men and four officers. Ericsson died in New York March 8, 1889. He was one of the supreme geniuses in the field of naval engineering, and in his later years was working on apparatus for the capture and transmission of solar energy, which may prove as prophetic as Langley's "Pilot" experiments have been in the sphere of aviation.—[Philadelphia Ledger.]

UNITED STATES LEADS

More Than Half of World's Radio Stations in America

Evidence of the impressive growth of radio is seen in a recent census showing that there are 344 broadcasting stations throughout the world. Of the total, 233 are in the United States, the remaining 111 being scattered in different countries. Great Britain has twenty-one, of which the strongest is said to serve a population of 23,000,000 persons within the range of crystal sets alone. Germany has twenty stations; France has nineteen; Spain, thirteen and Russia, seven. Canadian stations number nearly a hundred. Australia is served by thirteen stations, India has only three; South Africa has four, and there is one in the Canary Islands. China's two stations are to be supplemented by four more. Although Japan has but three, thirty are to be erected by American contractors. Cuba has thirty-six broadcasting centers, most of them of low power; Mexico has sixteen, seven of which are in Mexico City, and South America twenty-seven.

Wasp "Byscrapers"

In Colombia and Brazil, enormous nests are found belonging to social wasps, says Nature Magazine. These are "byscrapers" of the insect world, tenanted by thousands of individuals, each working for the good of the colony. Some of them are four feet in length.

NEW ISSUE

\$11,500,000

Virginia Public Service Company

First Mortgage and Refunding Twenty-Year 5 1/2% Gold Bonds, Series A

Dated February 1, 1926. Due February 1, 1946. Redeemable on the first of any month, on thirty days' notice, as a whole or in part, at 105 and accrued interest, reducing 1/4 of 1% for each year elapsed from January 31, 1926, up to maturity. Semi-annual interest payable February 1st and August 1st in New York; \$1000 and \$500 Coupon Bonds with privilege of registration as principal. The New York Trust Company, New York, Trustee.

The Company agrees to pay interest without deduction for any normal Federal Income Tax not exceeding 2%, which the Company or Trustee may be required or permitted to pay at the source, and to reimburse the resident holders of these bonds, if requested within 60 days after payment for the personal property tax in the States of Connecticut, Pennsylvania and California, not exceeding four mills per annum, State of Maryland not exceeding four and one-half mills per annum and District of Columbia not exceeding five mills per annum and also for the income tax, not exceeding 6%, on the interest thereon in the State of Massachusetts.

Mr. A. E. Fitkin, President of the Company, summarizes his annexed letter as follows:

Virginia Public Service Company, a corporation organized under the laws of Virginia, will acquire by merger the property now owned by Alexandria Light and Power Company, Virginia Northern Power Company, Virginia-Western Power Company and Southside Virginia Power Company, and will own preferred and common stock of Newport News and Hampton Railway Gas and Electric Company. The territory served with electric light and power includes 130 communities with a total population of over 220,000, including Newport News, Hampton and environs, Alexandria, Warrenton, Charlottesville, Staunton, Clifton Forge, and on the south Emporia, South Boston and intermediate communities. Gas and ice business is done in eight communities including Newport News and adjacent towns. Street railways are operated in Newport News and Charlottesville, with an aggregate trackage of 53 equivalent miles of single track. The electric system includes generating stations, having a total installed capacity of 52,136 h.p., of which 6,357 h.p. is hydro-electric, and 486 miles of high tension transmission lines serving 42,570 consumers. The gas properties include generating plants with an aggregate daily capacity of 3,500,000 cu. ft. and 86 miles of gas mains, serving 6,548 customers. The ice plants of the Company have an aggregate daily capacity of 291 tons. During the year ended December 31, 1925, 101,383,402 kwh. of electric energy and 240,263,000 cu. ft. of gas were generated.

CAPITALIZATION

(Upon completion of present financing)

First Mortgage and Refunding 5 1/2% Gold Bonds, Series A (this issue) \$11,500,000

Divisional First Mortgage 5% Bonds 3,400,000

Twenty-Year 6% Debentures, due 1946 5,000,000

7% Cumulative Preferred Stock 3,000,000

Common Stock (all held by National Public Service Corp.) 300,000 shares

*Includes \$1,400,000 deferred interest bearing bonds, which bear annual interest of 2 1/4% beginning January 1, 1927, 5% January 1, 1928, and mature January 1, 1929.

The Newport News and Hampton Railway Gas and Electric Company, of which this Company will own over 91% of the common stock and 58% of the preferred stock, has outstanding in the hands of the public \$4,734,500 of 5% Bonds and \$46,000 of 4 1/4% Bonds.

SECURITY

These bonds, in the opinion of counsel, will be secured by a direct first mortgage on electric power and light and gas properties appraised at a depreciated valuation of \$10,017,507, and constitute a direct lien on the remainder of the merged properties, subject to \$3,400,000 divisional bonds and will be further secured by pledge of over 91% of the common stock and 58% of the preferred stock of the Newport News and Hampton Railway Gas and Electric Company and 100% of the Charlottesville and Albemarle Railway Company common stock, the value of which stocks, based upon appraisal of the properties, is not less than \$5,801,480. These bonds, the divisional bonds and the bonds of subsidiary companies aggregating \$19,680,500, represent less than 78% of the total value of physical property.

The Company has set aside funds estimated to be sufficient in amount to acquire the balance of the outstanding preferred and common stocks of the Newport News and Hampton Railway Gas and Electric Company and upon their acquisition proposes presently to merge those properties with the present Virginia Public Service Company.

CONSOLIDATED EARNINGS

(As officially reported for the 12 months ended December 31, 1925)

Gross \$4,557,786

Operating Expenses, including prior charges of subsidiaries 2,894,468

Net Earnings \$1,663,318

Bond Interest (this issue) \$632,500

Divisional Bond Interest 100,000*

Balance \$ 930,818

*Not including interest on \$1,400,000 divisional bonds, which do not begin to bear interest until January 1, 1927.

Above Net Earnings over 2.27 times annual interest requirements on mortgage bonds outstanding. More than 95% of the net earnings from operations are derived from electric power and light, gas, ice and sources other than street railway.

The proceeds from these bonds, together with the proceeds from \$5,000,000 Twenty-Year 6% Debenture Bonds and \$3,000,000 7% Preferred Stock, are being used for and in connection with the merger and acquisition of properties above described, and for the retirement of outstanding obligations of the companies which are parties to such merger, and to furnish additional moneys to connect by transmission lines the properties in western and southern Virginia, together with other additions and betterments.

These bonds are offered for delivery when, as and if issued and received by us and subject to approval of counsel. It is expected that interim receipts of the Trustee will be ready for delivery on or about March 15, 1926.

COLOMBIA OFFERING OUT SOON

South American Republic Securities Expected in Market This Week

Negotiations for the purchase of an issue of \$4,000,000 twenty-year bonds of one of the most important departments of the Republic of Colombia have been completed by Blyth, Witter & Co., and Baker, Kellogg & Co., according to information current in New York banking circles. It is expected that a nation-wide offering of this issue will be made within a few days.

The Republic of Colombia ranks third in population, of the states of South America and occupies an area of more than 475,000 square miles, or more than all the States of the Atlantic seaboard from Maine to Florida. It is the world's largest producer of platinum and emeralds, and second largest producer of coffee.

The banking system of the Republic is modeled after the United States Federal Reserve system. The Colombian dollar has been one of the most stable of South American currencies, the present quotation being slightly above par exchange, the bankers assert.

ADVANCE STEP IN RESEARCH

Formation of Co-operative Society for Gathering Data on California Pioneer Movement

BY GLENN PALMER

The establishment of a co-operative association of research men for the purpose of making available more complete and accurate statistics for California, is indicative of nation-wide changes that are taking place in the conduct of business.

True to its reputation, California has again pioneered, and Secretary Hoover says, is setting up a standard of progress that is highly important. In a letter to the State research conference held recently in this city, he said: "The improvement of our various statistical services through increasing the percentage of accuracy and reliability is a greater degree of uniformity, possible in the handling of our economic problems."

Until recently, rational deductions from accurate facts have often been difficult because of the lack of accurate data at the time the decisions must be made. Government statistics have been accurate in the fields and for the periods they have covered, but their inadequacy to the needs of modern research has created a demand for more complete and accurate government figures than it is possible to secure with the present appropriations for this work.

The situation as we find it today and the part that the new association may play in increasing the business efficiency of the State may be illustrated by a few specific cases.

FACTS CONFUSE

The growth and recognition of commercial research organizations supplementing the work of the State and Federal governments and of the universities, has greatly increased the number of collected facts, and at the same time given rise to confusion because of incomparability and discrepancy in published figures, and at the same time has created a demand for more complete and accurate government figures than it is possible to secure with the present appropriations for this work.

The situation as we find it today and the part that the new association may play in increasing the business efficiency of the State may be illustrated by a few specific cases.

WORK ON WAY

At the recent conference, Walter Bradley of the State Mining Bureau was asked by the Industrial Secretary of the San Diego Chamber of Commerce if there was any way San Diego county could secure a survey of the markets for the minerals she had available. Bradley replied that such a survey could not be made without legislative authorization. Following this revelation, Charles F. Knight of the California Development Association arose and reported that his organization was preparing such a survey at the present time.

Following this revelation, Charles F. Knight of the California Development Association arose and reported that his organization was preparing such a survey at the present time.

WALL STREET PARAGRAPHS

Prices Crash in Last Hour Selling Assault on Utility List

(REUTERS DISPATCH)

NEW YORK, March 2.—After showing a somewhat better tone in the early part of the day, the stock market today was called upon to absorb another flood of liquidation in the afternoon, under which the list again broke rather badly. During the forenoon a handful of specialties continued under pressure, but selling appeared to have run its course in the general run of stocks. With the turn of the day, however, heavy pressure was brought to bear against the utilities, and the generally crumbling away an extensive liquidation was released. Panicky selling of these stocks in the hour turned speculators' attention to the list. Stop loss selling was extensive in that hour, and the weakness again unsettled the general list. Relaxation in money reflecting the easing of the selling had been needed, and that a rally might get under way, the professionals who had limited their fresh selling operations to a handful of specialties in the forenoon, launched a drive against the public utilities stocks. Heavy selling of these shares followed a resounding crash in a few of the heavy utilities, such as American Light, which came down over 20 points, United Light and Power, which crashed almost 40 points and United Gas Improvement, where a further loss of 20 points was sustained on top of the recent break. On the big board selling pressure was at its height, and American Waterworks, driving the American down almost 10 points while the latter's liquidation was forced in American and Foreign Power, National Power, North American, Electric Power, and Light and Montana Power, among others, to new lows for the year. Columbia Gas held firmly in face of the anarchy, but the trend was downward, and the authorized amount of capital stock.

Utilities Break Badly

Just when it appeared that the worst of the selling had been withered, and that a rally might get under way, the professionals who had limited their fresh selling operations to a handful of specialties in the forenoon, launched a drive against the public utilities stocks. Heavy selling of these shares followed a resounding crash in a few of the heavy utilities, such as American Light, which came down over 20 points, United Light and Power, which crashed almost 40 points and United Gas Improvement, where a further loss of 20 points was sustained on top of the recent break. On the big board selling pressure was at its height, and American Waterworks, driving the American down almost 10 points while the latter's liquidation was forced in American and Foreign Power, National Power, North American, Electric Power, and Light and Montana Power, among others, to new lows for the year. Columbia Gas held firmly in face of the anarchy, but the trend was downward, and the authorized amount of capital stock.

American Loco's Report

With the annual report of American Locomotive out of the way, the equipment shares showed a decidedly improved tone, holding around 100 points, and showing a slight recovery from the low point of the day. But the 1925 figures of Loco were every bit as good as the previous year, showing a deficit of \$350,000 after depreciation, but before preferred dividends.

Stocks Unfilled Orders

The unfilled tonnage statement of the Steel Corporation showing the backlog of orders on hand at the end of February, due at noon next Wednesday, the street was engaged in trying to figure out the situation. About a week ago it was estimated that a decrease of about 100,000 tons would be disclosed in consequence of the high rate of operations and slow rate of additions to the backlog. At this time, however, trade circles are not quite so optimistic and the general run of estimates indicates that a reduction of around 500,000 tons in unfilled orders is looked for. If current estimates are approximately correct, the total of business on the books, but unfilled at the end of February, will be around 4,737,000 tons or the lowest since last November, when forward business aggregated 4,837,730 tons. It will also be roughly 500,000 tons less than the total shown at the end of February last year, when the corporation had 5,234,771 tons in unfilled orders on its books.

MAN WHO TOOK RABBIT TO AUSTRALIA DEAD

John R. Collison, who is said to have been the first person to introduce rabbits into Australia, has died at his home at Langley, near Melbourne. Mr. Collison, who was 65 years of age, was a great traveler in his early days, and owned a large ranch in Australia. He was really the pioneer in introducing rabbits into Australia, and his wealth is not likely to erect a statue to his memory.

Effects of the rabbit's introduction into Australia include loss of \$100,000,000 worth of crops a year; 15,000,000 a year in sheep, and efforts to exterminate it; 16,000 miles of wire netting erected for protection.

Perrets were introduced to kill the rabbits, but they developed a taste for potatoes—bush dogs—and their progeny created havoc among the sheep. Rabbits infected with poison virus have been released among the fellows, but the poison did not work. The problem of the Australian rabbit baffled Pasteur himself.

Most Australians are surprised that the introduction of the rabbit has just died. Unkind things were being said about him a generation ago.—[Vancouver Province.]

THE MONITOR

Willis Drake, believed to be the survivor of the crew of the Monitor, has passed away in Elizabeth, N. J., at the age of 85 years. The first successful ironclad of our Navy had her historic encounter with the Merrimack on March 3, 1862. The Monitor was built at Greenpoint, Long Island, under the supervision of John Ericsson, and was launched January 30, 1862. Considering the fame she won, the Monitor's term of life was brief indeed. For within a year after the engagement which brought the "iron vessel" lasting glory, she foundered (December 31, 1862) in a storm off Cape Hatteras, with the loss of seventeen men and four officers. Ericsson died in New York March 8, 1889. He was one of the supreme geniuses in the field of naval engineering, and in his later years was working on apparatus for the capture and transmission of solar energy, which may prove as prophetic as Langley's "Potomac" experiments have been in the sphere of aviation.—[Philadelphia Ledger.]

UNITED STATES LEADS

More Than Half of World's Radio Stations in America

Evidence of the impressive growth of radio is seen in a recent census showing that there are 144 broad-casting stations throughout the world. Of the total, 538 are in the United States, the remaining 856 being scattered in different countries. Great Britain has twenty-one, of which the strongest is said to serve a population of 23,600,000 persons within the range of crystal sets alone. Germany has twenty stations; France has nineteen; Spain, thirteen; and Russia, seven. Canadian stations number nearly a hundred. Australia is served by thirteen stations, India has only three; South Africa has four, and there is one in the Canary Islands. China's two stations are to be supplemented by four more. Although Japan has but three, thirty are to be erected by American contractors. Cuba has thirty-six broadcast centers, most of them of low power; Mexico has sixteen, seven of which are in Mexico City, and South America twenty-seven.

Wasp—"Sixty-sixers"

In Colombia and Brazil, enormous nests are found, belonging to social wasps, says Nature Magazine. These are the "sixty-sixers" of the insect world, tenanted by thousands of individuals, each working for the good of the colony. Some of them are four feet in length.

NEW ISSUE

\$11,500,000

Virginia Public Service Company

First Mortgage and Refunding Twenty-Year 5 1/2% Gold Bonds, Series A

Dated February 1, 1926. Due February 1, 1946. Redeemable on the first of any month, on thirty days' notice, as a whole or in part, at 105 and accrued interest, reducing 1/4 of 1% for each year elapsed from January 31, 1926, up to maturity. Semi-annual interest payable February 1st and August 1st in New York, \$1000 and \$500 Coupon Bonds with privilege of registration as to principal. The New York Trust Company, New York, Trustee.

The Company agrees to pay interest without deduction for any normal Federal income tax not exceeding 2%, which the Company or Trustee may be required or permitted to pay at the source, and to reimburse the resident holders of these bonds, if requested within 90 days after payment, for the personal property tax in the States of Connecticut, Pennsylvania and California, not exceeding four mills per annum, State of Maryland not exceeding four and one-half mills per annum and District of Columbia not exceeding five mills per annum and also for the income tax, not exceeding 6%, on the interest thereon in the State of Massachusetts.

Mr. A. E. Fitkin, President of the Company, summarizes his annexed letter as follows:

Virginia Public Service Company, a corporation organized under the laws of Virginia, will acquire by merger the property now owned by Alexandria Light and Power Company, Virginia Northern Power Company, Virginia Western Power Company and Southside Virginia Power Company, and will own preferred and common stock of Newport News and Hampton Railway Gas and Electric Company. The territory served with electric light and power includes 130 communities with a total population of over 220,000, including Newport News, Hampton and environs, Alexandria, Warrenton, Charlottesville, Staunton, Clifton Forge, and on the south, Emporia, South Boston and intermediate communities. Gas and ice business is done in eight communities including Newport News and adjacent towns. Street railways are operated in Newport News and Charlottesville, with an aggregate trackage of 53 equivalent miles of single track. The electric system includes generating stations, having a total installed capacity of 52,136 h.p., of which 6,357 h.p. is hydro-electric, and 486 miles of high tension transmission lines serving 42,570 consumers. The gas properties include generating plants with an aggregate daily capacity of 3,500,000 cu. ft. and 86 miles of gas mains, serving 6,548 customers. The ice plants of the Company have an aggregate daily capacity of 291 tons. During the year ended December 31, 1925, 101,883,402 kwh. of electric energy and 240,263,000 cu. ft. of gas were generated.

CAPITALIZATION

(Upon completion of present financing)

First Mortgage and Refunding 5 1/2% Gold Bonds, Series A (this issue) \$11,500,000

Divisional First Mortgage 5% Bonds 3,400,000

Twenty-Year 6% Debentures, due 1946 5,000,000

7% Cumulative Preferred Stock 3,000,000

Common Stock (all held by National Public Service Corp.) 300,000 shares

*Includes \$1,000,000 deferred interest bearing bonds, which bear annual interest of 5% beginning January 1, 1927, 5% January 1, 1928, and mature January 1, 1929.

The Newport News and Hampton Railway Gas and Electric Company, of which this Company will own over 91% of the common stock and 58% of the preferred stock, has outstanding in the hands of the public \$4,734,500 of 5% Bonds and \$46,000 of 4 1/4% Bonds.

SECURITY

These bonds, in the opinion of counsel, will be secured by a direct first mortgage on electric power and light and gas properties appraised at a depreciated valuation of \$10,017,507, and constitute a direct lien on the remainder of the merged properties, subject to \$3,400,000 divisional bonds and will be further secured by pledge of over 91% of the common stock and 58% of the preferred stock of the Newport News and Hampton Railway Gas and Electric Company and 100% of the Charlottesville and Albemarle Railway Company common stock, the value of which stocks, based upon appraisal of the properties, is not less than \$5,801,480. These bonds, the divisional bonds and the bonds of subsidiary companies aggregating \$19,680,500, represent less than 78% of the total value of physical property.

The Company has set aside funds estimated to be sufficient in amount to acquire the balance of the outstanding preferred and common stocks of the Newport News and Hampton Railway Gas and Electric Company and upon their acquisition proposes presently to merge those properties with the present Virginia Public Service Company.

CONSOLIDATED EARNINGS

(As officially reported for the 12 months ended December 31, 1925)

Gross \$4,557,786

Operating Expenses, including prior charges of subsidiaries 2,894,468

Net Earnings \$1,663,318

Bond Interest (this issue) \$632,500

Divisional Bond Interest 100,000

Balance \$ 930,818

*Not including interest on \$1,000,000 divisional bonds, which do not begin to bear interest until January 1, 1927.

Above Net Earnings over 2.27 times annual interest requirements on mortgage bonds outstanding.

More than 95% of the net earnings from operations are derived from electric power and light, gas, ice and sources other than street railway.

The proceeds from these bonds, together with the proceeds from \$5,000,000 Twenty-Year 6% Debenture Bonds and \$3,000,000 7% Preferred Stock, are being used for and in connection with the merger and acquisition of properties above described, and for the retirement of outstanding obligations of the companies which are parties to such merger, and to furnish additional moneys to connect by transmission lines the properties in western and southern Virginia, together with other additions and betterments.

These bonds are offered for delivery when, as and if issued and received by us and subject to approval of counsel. It is expected that interim receipts of the Trustee will be ready for delivery on or about March 15, 1926.

</

BOND QUOTATIONS

Selling Leads Trading
(BY A. P. NIGHT WIRE)

NEW YORK, March 2.—Interest in bond trading today was completely overshadowed by the collapse of stock prices, although the market shared in the disorder which affected the more speculative securities. Virtually all the activity was on the selling side, with several outstanding soft spots developing.

Most of the losses were limited to a point or two, although a sharp nine-point reaction took place in American 4s convertible 7s, following a decline in the company's stock. The bonds reached a new level for the year at 123. The severe breaks in public utility and railroad shares brought about sympathy unsellability in the bonds of those companies, but many of them offered strong resistance to selling pressure.

In the railroad group declines ranging from fractions to, almost two points were recorded by Baltimore and Ohio, Chesapeake and Ohio, Chicago, Great Western, Illinois Central, St. Paul, Denver and Rio Grande, Missouri Pacific, New York Central, Northern Pacific, Peoria and Eastern, Chicago and Alton, Southern Railway, Frisco and Seaboard Air Line.

Selling in the industrial division was centered largely against issues which had played a part in recent speculative operations. Oil bonds reacted sharply, Skelly 6 1/2s falling 3 1/2 points and American Petroleum American 6 1/2s a point or so. Other heavy stocks were Granby Mining, Rogers Development, Iron, Virginia-Carolina Chemical 7s, Dole Packing 6s, Federal Metals 7s, and Liggett & Myers 7s.

Further liquidation of local traction issues resulted in a four-point drop in Interborough 7s. Moderate losses were recorded by Nassau Electric 4s, Laclede Gas 5s, New York Railway 4s, North American, Edison 5s and Utah Power 5s.

Interest in new financing centered in the announcement of a \$10,000,000 bond offering for the Philadelphia Electric Power Company to finance the Conowingo power development on the Susquehanna River. The forty-six year 5 1/2 per cent bonds will be sold through a syndicate headed by Drexel & Co., Brown Bros. & Co. and Harris, Froese & Co.

Following are yesterday's high and closing prices of bonds on the New York Stock Exchange and the list of new issues.

MARKET FLASHES

(BY A. P. NIGHT WIRE)

NEW YORK, March 2.—A sensational collapse in the public utility shares overshadowed all other developments in today's curb market. It was the first universal and violent break in these issues since the beginning of the boom over two years ago. All other groups yielded in sympathy, but the declines were nowhere near as large.

United Light & Power broke from 133 1/4 to 83 and then rallied to 90 1/4 for a net loss of 32 points on the day. American Light and Traction dropped from 231 to 201 and then snapped back to 208, a net loss of 24 points. American Electric Bond and Share, Electric Power of America, and United Gas and Electric Power all declined 4 to 5 points, but were recovered in part on the appearance of strong buying support for some issues just before the close.

With the exception of Standard Oil of Kentucky, which fell 5 points to 115, the oil shares offered splendid resistance to selling pressure. Standard Oil of Indiana, Prairie Oil and Gas, International Petroleum, and Humble yielded only a point or two.

Selling of the industrial centered largely in new and unseasoned issues. Electrical Refrigeration broke over 5 points to 58 1/4, and snapped back to 62. Grand Stores dropped 5 points on a few sales. Foundation Company, for which which was one of the weak spots earlier in the week, showed a net gain of nearly a point, ending at 100 1/4.

Mining shares moved within narrow and irregular limits, one of the few features being the heavy trading in Kay Copper which duplicated the year's high.

NEW YORK CURB

Utilities Break
(BY A. P. NIGHT WIRE)

NEW YORK, March 2.—A sensational collapse in the public utility shares overshadowed all other developments in today's curb market. It was the first universal and violent break in these issues since the beginning of the boom over two years ago. All other groups yielded in sympathy, but the declines were nowhere near as large.

United Light & Power broke from 133 1/4 to 83 and then rallied to 90 1/4 for a net loss of 32 points on the day. American Light and Traction dropped from 231 to 201 and then snapped back to 208, a net loss of 24 points. American Electric Bond and Share, Electric Power of America, and United Gas and Electric Power all declined 4 to 5 points, but were recovered in part on the appearance of strong buying support for some issues just before the close.

With the exception of Standard Oil of Kentucky, which fell 5 points to 115, the oil shares offered splendid resistance to selling pressure. Standard Oil of Indiana, Prairie Oil and Gas, International Petroleum, and Humble yielded only a point or two.

Selling of the industrial centered largely in new and unseasoned issues. Electrical Refrigeration broke over 5 points to 58 1/4, and snapped back to 62. Grand Stores dropped 5 points on a few sales. Foundation Company, for which which was one of the weak spots earlier in the week, showed a net gain of nearly a point, ending at 100 1/4.

Mining shares moved within narrow and irregular limits, one of the few features being the heavy trading in Kay Copper which duplicated the year's high.

WEDNESDAY MORNING.

YOUR INCOME TAX

The first \$4000 of net income in excess of the personal exemption credit for dependents, etc.; 5 per cent on the next \$4000, and 8 per cent on the balance. Under the preceding act the normal tax rate was 2 per cent on the first \$4000 of net income above the exemptions and credits, 4 per cent on the next \$4000 and 6 per cent on the remaining net income.

All net income up to \$5000 is considered "earned net income." On this amount the taxpayer is entitled to a credit of 25 per cent of the amount of the tax.

For example, a taxpayer unmarried and with no dependents, whose net income for 1925 was \$5000, would pay without this reduction a

FISHER'S WEEKLY INDEX

Prof. Irving Fisher's wholesale price index of 200 representative commodities and the relative purchasing power of money compared with monthly averages since January, the low in January, 1922, the peak of prices in May, 1920, and the basis 100 in 1913, follows:

Date	Index
1913—May (peak of prices)	147
1920—January (low)	128
1925—Average	153
1926—Average	153.3
1926—January average	153.2
1926—Week ended February 5	153.6
1926—Week ended February 12	154.6
1926—Week ended February 19	154.6
1926—Week ended February 26	155.5
1926—February average	155.6

[A statement of particular interest to investors at this time.]

Standard Oil Company of California

Authorized Capital 15,000,000 Shares of No Par Value

A Delaware Corporation

With the consolidation of Standard Oil Company (California) and Pacific Oil Company, there comes into existence a new corporation, known as Standard Oil Company of California, of which remarkable strength in its field, that, in our opinion, its stock should be bought at once for investment.

Commercial and industrial success are dependent not only upon financial resources and strength but also upon efficient management, public patronage and public good will. Standard of California has all of these things to such a remarkable extent that a future as brilliant as the past seems to us to be assured. The financial record and statistical position of the company are too well known—and readily available to anyone interested—to need repetition here. We prefer to confine this advertisement to other facts concerning the company which make it one of the strongest organizations in the United States.

CRUDE OIL SUPPLY. In the first place, with the addition of Pacific Oil's lands to its oil reserve, Standard's worries as to an adequate supply are at an end, for it has now secured what, in our opinion, is the greatest proven oil reserve in the world. Pacific Oil brings to the combination more than 250,000 acres owned in fee with no royalty obligations, of which approximately 30,000 acres are proven and only about 10% drilled. This enormous reserve will aid in stabilizing both the supply and price of crude oil. At this moment our surplus of crude oil in storage is being drawn upon to supply current demands, and it is quite possible that a stringency or shortage of oil will occur if new fields are not brought in to replace the natural decline in the present producing fields of the country. The new Standard's production will be about 150,000 barrels daily, which is about twenty-five per cent. of the production of the entire State of California. It is by far the largest producer in the United States.

PUBLIC RELATIONS. What we want most to discuss, however, is the position of Standard in its relations with the public, for upon good public relations depends the success of any commercial enterprise. Standard of California occupies a unique position in this respect. It has a high reputation for fair dealings and for courtesy to the public and to its customers.

SALES DEPARTMENT. Standard's principal public contact is through its system of filling or service stations, which it operates throughout the Pacific Coast—numbering about 750.

It was the first company in the United States to establish a service station system and it has brought this modern form of marketing to a high state of perfection.

The attendants manning these stations are of a very high character. They are young men having at least a high school education and one-third are college graduates. The excellent service rendered is a matter of common discussion.

The company has made a great point of courtesy at service stations and through this, together with efficiency of service and quality of product, has attained great public good will. The same courtesy and fair dealing prevail throughout all branches of the company.

PERSONNEL. The total personnel of the new company numbers about 19,000. It is more than ninety-nine per cent American. Standard has always had a fine reputation for the loyalty of its employees. The labor turnover is remarkably low. Nearly 3400 of its employees have been in its service for more than ten years.

Through the stock-sharing plan, 12,000 employees have bought \$26,000,000 worth of Standard of California stock during the past five years. For every dollar invested by the employee, the company added a bonus of fifty cents. Eighty-five per cent. of those

eligible, participated. The eight hour day is universal throughout the company.

REFINERIES. The company owns three refineries, two among the largest in the United States, and manufactures over 400 products from crude oil.

FLEET. The fleet consists of forty ships having a total capacity of over 1,500,000 barrels. These are in constant service carrying cargoes of petroleum products to various parts of the world at profitable rates.

REAL ESTATE HOLDINGS. In addition to its oil lands, the company owns and leases a great number of choice business corners in many California cities, San Francisco and Los Angeles included, on which service stations are located. These holdings in recent years have become very valuable.

TERRITORY SUPPLIED. Standard Oil Company of California owns and operates its own marketing facilities in California, Washington, Oregon, Nevada, Arizona, Idaho, Utah, Alaska, Hawaiian Islands and at one or two points on the Mexican border.

In addition, it sells to several thousand dealers and also to all classes of industrial and marine trade, its gasoline and other products. This territory is probably the fastest growing part of the world and with the prospective increase in population promises to become the most valuable market supplied by any major oil company.

RELIABILITY. A great many of the important industries on the Coast whose very life depends on a constant supply of fuel oil have contracts with Standard Oil Company of California. The contracts were made because these industries have confidence that the company's obligations will be promptly met under all conditions. The Standard has always met its obligations in the past and with the addition of Pacific Oil lands to its holdings, it should be prepared for any demands which will be made upon it in the future.

PRESENT POSITION. The balance sheet of the new company when published will undoubtedly make very interesting reading. The assets, including oil lands owned and leased, forty million or more barrels of oil in storage, its fleet, buildings, real estate, pipe lines, refineries and many millions in cash will be offset by no funded debts of any kind. There is no preferred stock and the only bond issue has been called for payment as of August 1, 1926.

There has been very little speculative buying of Standard Oil (old) stock for the past two years and the technical position of the new stock in the market should be unusually strong.

On account of the Company's unique position in the oil industry and the particularly encouraging outlook of the industry as a whole, we strongly recommend this stock as a conservative investment at current prices.

\$250,000

Sedco Land & Water Company

First Mortgage 7% Sinking Fund Gold Bonds

(A CLOSED MORTGAGE)

Dated March 1, 1926.

Denominations \$500 and \$1000

Due March 1, 1928.

Callable in whole or in part on any interest date upon forty days' notice to the Trustee at 102½ and accrued interest. Interest payable semi-annually (March 1 and September 1) at the Citizens Trust and Savings Bank, Los Angeles, California.

EXEMPT FROM CALIFORNIA PERSONAL PROPERTY TAX

Interest payable without deduction for Normal Federal Income Tax up to 2%.

CITIZENS TRUST & SAVINGS BANK, LOS ANGELES, TRUSTEE

The principal stockholders of the Sedco Land and Water Company owning over 90% of the stock waive their rights under the Statute of Limitations governing stockholders' liability in California. The capital stock of the Sedco Land and Water Company is owned by the Sherman Company, and R. P. Sherman Corp., whose net assets are in excess of \$3,000,000.

Investment Features, as summarized by Mr. R. P. Sherman, President, in a letter to us, are as follows:

SECURITY

These bonds are secured by a first closed mortgage, in the opinion of counsel, upon 2288 acres of land (owned in fee simple by the borrowers), including the townsite of Sedco, California, with improvements, together with the stock of the South Elsinore Mutual Water Company which is appurtenant thereto. This security has been conservatively appraised by Mr. Hugh Evans as having a value of \$835,000. The property is located approximately three miles south and east of the town of Elsinore, California, directly along the inland route of the Los Angeles-San Diego Highway and a branch of the Santa Fe Railroad, and extends back to the foothills. The townsite is well laid out with streets, curbs, lights and water. Main roads and irrigation pipe lines have been well distributed over the agricultural land. Present improvements represent a replacement value of over \$100,000. 150 acres comprise the townsite of Sedco, California, and 2188 acres are particularly adapted to the culture of deciduous and citrus fruits. This, coupled with favorable climatic conditions, has created an active demand for its improvement and sale. The Sherman Company and R. P. Sherman Corp., composed of men of long and successful business experience, who are well known for their executive and financial ability, are the owners of over 90% of the stock of the Sedco Land & Water Company. The net assets of these companies are in excess of \$5,000,000.

RELEASE OF PROPERTY

Separate parcels of land under the mortgage may be released only by the payment to the Trustee of an amount amply to protect the bondholders and so designated in the trust indenture. In the aggregate these release prices amount to a sum substantially in excess of the bonded debt, while the appraised value of the property amounts to over 2½ times the amount of the bonded debt.

WATER DEVELOPMENT

An ample supply of water for domestic and irrigation purposes is available and is distributed through a system owned by the South Elsinore Mutual Water Company, the control of which is owned by the Sedco Land & Water Company. Each acre of land sold carries with it one share of this stock.

Bonds are offered for delivery as, if and when issued and received by us, subject to issuance of permit by the Commissioner of Corporations of the State of California. All bonds offered are subject to prior sale and change in price.

TO DEN POINTS

It isn't real poverty unless the boys are as bare as their elbows like to be.

What price glory? Well, a bold out, the idol of the fans, may get \$200 extra to sign up.

It is estimated that the first manufactured this year will be worth \$1,250,000 to rural communities.

Few know where the Mason line was; anybody can see where the corn and cotton line is.

About all a fan can do is the way of spring training is to seek open spaces and practice "rotten."

Refining consists in taking the worth of crude oil and changing it at a cost of \$2.50 into petroleum worth \$12.50.

A good time to scout for future stars is to watch young southern when snow is amputation.

That Russian who killed a doctor who failed to cure him probably figured that a lawyer's bill would be less than the doctor's.

Sure, let's publish the minutes of Cabinet meetings. And a record of their activities. If, by the way, they aren't in session.

We often wonder how a man can tell when he has a fever.

The anthracite mine mules again under ground and the same have taken their accustomed place above.

You must book months ahead for a European trip and by the time you've located something to drink.

Man must be close to his God. No other creature has the nerve to kick about the way the universe is run.

Still, if everybody had to work for a living there would be no need to watch the sign painter.

Among Poni's sins is that of affording somebody too much comfort.

The pies that mother used to make required great skill, a lot of oven and a boy appetite.

It's none of our business, but we keep wondering if the King of Italy has learned to play solitaire.

Correct this sentence: "Alas," said the Baltimore policeman, "I have caught you with a quart."

If a married man is polite never can tell whether he's chivalrous or scared.

The biggest joke seems to be the working girl who marries and she won't have to work.

The trouble with the "green mind" is that frequently it is too low a standard of intelligence.

Many a girl has it in her power to make any number of men happy for life—by declining to marry them.

A secret is what you tell one not to tell because you promised not to tell it yourself.

The train of thought that is slow freight sometimes carries more valuable stuff than the fast express.

Some men are proud of having descended from their ancestors' estates; others boast of having risen above them.

There's a solitude surprising in the store of Druce & Brown, for they do no advertising in the journals of the town. When I'm weary of the riot that pervades the big street I can find a blissful retreat in the soothing, safe retreat. There the silence is unbroken all the day to twilight hours, no aggressive word is spoken. Other men seek the forest; seek some lone, sequestered glade, where the strain of life is soothed and the spirit to tales uncharted, tales appealing to their taste, some have come to find the portal of heaven by some persevering, waiting, "Fas the earth no rubberneck trails where no rubberneck trails." No disturbance of Druce & Brown in their soothing, safe retreat. There sweet visions soothe the weary as I sleep the morning down. There are cobwebs gently swaying from the ceiling and the shelves there is golden dust, patrons here no bargain hunters, there no impatient maids or waiters call for five-cent specks of thread. Here a bad, world-worn mortal may repose amid the peace, shelves will clamor at the portals for they do not advertise.

FRONK WILL FACE TRIAL NEXT MONTH

Judge Hahn Rules Assorted Swindler Must Answer to Indictments April 26

J. K. Fronk, asserted \$300,000 swindler, must face trial on the indictments found against him, Judge Hahn ruled yesterday. His trial was set for April 26, next. The ruling followed an argument by Charles Pickett and W. V. Anderson, attorneys for Fronk, and reply by Dep. Dist. Atty. Ryan, on denunciations to the indictments. It was charged the indictments are irregular and do not describe crimes set forth in the Criminal Code.

Fronk is charged with issuing bad checks and with grand larceny in indictments covering many counts. He was returned recently from Chicago by Sheriff Trager, upon requisition of Gov. Richardson, having fled from Los Angeles in the face of threatened collapse of automobile finance and other operations in which kited checks are declared to have been used extensively. Fronk also is involved in bankruptcy proceedings. Though he is asserted to have realized several hundred thousand dollars in his operations he had only a small amount left when he was captured.

FASHIONS & FOIBLES
by Shirley Sharon

Going on under may be an age but picturesque and poetic with its slender capes and the youthful Shelley look of its short head.

Now that the short clothes of today, mothers and juniors meet on a more or less equal plane, there is no awkward age for the growing girl. Her coat folds repeat the French cape, the coat changes and the low-lunged belt of her sister with the hippest results, since they are extremely becoming to her slim figure. Paris clothes in its small daughter in light-weight tweeds, camel-hair, tulle and cashmere, with the cape lined with ermine de Chine. Moss green with gray or beige to smart and cadet blue with scarlet for a martial air.

WRITES TODAY FOR PIONEER MERCHANT

W. B. Broadwell Had Been in Business in Covina for Past Thirty Years

Funeral services will be conducted today at 2 p. m. from the Holy Trinity Church in Covina for William B. Broadwell, for forty years a resident of California and a pioneer merchant in Eastern California as well as a prominent merchant of Covina for the last thirty years.

Mr. Broadwell, who was 62 years of age, died last Sunday afternoon at the California Lutheran Hospital in this city. Prior to his fatal illness, Mr. Broadwell had been in perfect health and up to that time had been in active charge of the business administration of his three department stores located in Covina, Hemet and Burbank.

Mr. Broadwell leaves two sons, Robert, associated with his firm in Covina, and Samuel J. Broadwell, assistant professor of physics at the University of Southern California. A daughter, Helen, a singer, is now on a tour of Europe but has been informed of her father's death.

Interment will be in the family plot at Mountain View Cemetery in Pasadena.

KID McCOY LOSES CASE ON APPEAL

Court Refuses to Reverse Conviction on Robbery and Assault Charges

Norman Selby, the "Kid McCoy" of the prize ring, met another obstruction in his fight to gain freedom from the penitentiary yesterday when the District Court of Appeal Division Two denied his appeal from his conviction on charges of robbery and various kinds of assault.

Selby at present is serving a sentence for manslaughter growing out of the slaying of Mrs. Mary More in August, 1924. The manslaughter conviction, however, was reversed by the Court of Appeal and the case was carried up to the State Supreme Court by the Attorney General. An early decision in this phase of the case is expected.

In the appeal from Selby's conviction on the robbery and assault charges, his attorneys contended that the trial was unfair and that he was freed on some technicalities of the law which could not be held on others. The court, however, in the decision yesterday, said that the defense was not sufficient to set aside the verdict and dismissed the appeal.

EXPERT ON EDUCATION FOR ADULTS TO SPEAK

Dr. Albert Mansbridge, executive secretary of the World Education Association for Adult Education, will deliver the first of a series of lectures tonight in the auditorium of the Southern California High School, Pico and Broadway streets. Dr. Mansbridge is connected with Oxford University, England, and will be under the auspices of the Adult Education Association of Los Angeles and Southern California.

WEDNESDAY MORNING.

What Women are Doing

BY MYRA NYE

The stage is all set for the Southern California Women's Press Club luncheon and the curtain will rise next Saturday night at 7:15 o'clock at Barker Brothers' new theater.

Roy Stewart, master of ceremonies, will introduce the celebrities whose names promise an attractive bill for this year's performance. Eight acts will be presented by eight members of the club, Anne Macdonald, young actress-contraalto, the talented young playwright, Catherine Luebeck and Catherine Grotzinger, a Bowery girl.

A society orchestra, composed entirely of women, and conducted by Alice Calhoun, will play throughout the program. Miss Calhoun also will give a short talk.

Patricia Ward, famous for her Shakespearean roles and loved for her interpretation of the Juniper tree, and a favorite with the Press Club, will appear with a surprise.

Members of national fame, the members of the Press Club, will be presented by Emily Mann Timmerman. The composer will play one of her best-loved songs. The songs will be sung by Miss Ruth Brown, young mezzo-soprano, who recently made her debut in Los Angeles with the Philharmonic orchestra before an enthusiastic audience. The composers are Carlisle Floyd, who will play the "Rhapsody," and Grace Bush, "Rhapsody."

Laurie Gregory, "My Dear Little Mary," Helen Galt, "Day," and Estelle Dyer, "Honeycomb."

Barbara McQuinn, who introduces an act of her own production, "The Girl Who Came to Stay," will be presented by Lucia Voss. In her act, a woman does such exorcisms, never having done them before, needs commenting.

Grace Pitt will introduce W. R. Sullivan, baritone, who will be accompanied by his daughter, Harriet, who is a pianist. Mr. Sullivan is a successful business man, a member of the Southern California Club, and a member of the Press Club. He has a number of records as a soloist and as a member of a quartet.

A group of ukulele and guitar players under the direction of John R. Brown, who is a member of the Press Club, will be presented by Lucia Voss. The group is a quartet, consisting of John R. Brown, who is a member of the Press Club, and three other members. They will play the Hawaiian instrument, the ukulele, and the guitar.

The Optimist Quartet will appear. Tickets for the evening are \$2.00. The door will be open at 7:00 p. m. The luncheon will be served at 7:30 p. m. The program will begin at 8:00 p. m.

Harold Novis, as Rainhart, secretary, gave a satisfactory report on the progress of the club. He also reported on the progress of the club. He also reported on the progress of the club.

Robert Morris, singing solo, gave a satisfactory report on the progress of the club. He also reported on the progress of the club. He also reported on the progress of the club.

John R. Brown, who is a member of the Press Club, will be presented by Lucia Voss. In her act, a woman does such exorcisms, never having done them before, needs commenting.

Of interest to Women

Diet and Health

By Lulu Hunt Peters, M.D.
Author of "Diet and Health" and "Diet for Children"

ANSWERS TO CORRESPONDENTS

Some Wonderful Effects of Exercise and Diet

"I want to thank you for all the good I have gained by following the instructions in your little red book, 'Diet and Health.' I am now 110 pounds, and I was 140 pounds when I started. I am now 110 pounds, and I was 140 pounds when I started. I am now 110 pounds, and I was 140 pounds when I started."

Thank you ever so much for letting us know your results, and for your kind thoughts, Mrs. A. (Those of you who want the instructions on gaining or losing) may have them by sending a self-addressed, stamped envelope and 10 cents in stamps with request. The article on the atonic abdominal wall, which contains the exercises Mrs. A. refers to, may be had by the request, accompanied by self-addressed, stamped envelope only.)

TUBERCULOSIS

It should judge that your sister who regained her health from tuberculosis is being manufactured in great quantities in Los Angeles. Mr. May declared, "If the public realizes that good quality merchandise is being manufactured right here at home, I am sure that it will purchase this merchandise in preference to that manufactured in the East."

More than fifty local manufacturers were present at the luncheon and agreed to participate in the exhibition.

"We want the manufacturers to come forward and show how merchandise is being manufactured in great quantities in Los Angeles. Mr. May declared, 'If the public realizes that good quality merchandise is being manufactured right here at home, I am sure that it will purchase this merchandise in preference to that manufactured in the East.'"

STUFFED PEPPERS, MEXICAN

Place two tablespoons of butter in a small saucepan, and three finely chopped shallots and one tablespoonful of finely chopped cooked ham, stir and cook two minutes. Sprinkle over two tablespoons of flour and stir and cook one minute; add half a cupful of tomato sauce, one finely chopped small green pepper, a teaspoonful of chopped parsley and the meat from two raw cluck sausages; season with salt and pepper and one-quarter of a teaspoonful of ground nutmeg; mix well and cook ten minutes. Remove from the fire and add four tablespoons of bread crumbs mixed with two tablespoons of Spanish seasoning.

Drop into boiling water three large green peppers, let stand two minutes, drain and rub off the skins with a coarse towel. Split in halves lengthwise, remove seeds and string and fill with the above stuffing. Lay the peppers on a buttered pan, sprinkle lightly with sifted bread crumbs, dot with bits of butter and bake a nice brown.

they are used by the modern playwright. Mrs. Williams will also review "The Kingdoms," in which a modern girl devotes her energies to succeeding simultaneously as a wife, mother and business woman. An informal discussion of the month's most interesting magazine articles will conclude the meeting.

Wednesday Morning Club

The program at the Wednesday Morning Club the 10th inst. will be presented by the drama section of the West End Club. This program was given recently at the club's own club with great success. Luncheon hosts for the day will be Mrs. Bonnie Robertson.

Miss Lillian Leitham, president of the Shakespeare Alumnae, announced that the members of the alumnae will be entertained at the home of Mrs. J. H. Hale the 15th inst.

Mrs. Julia Barber will take charge of the drama section as instructor beginning the 17th inst.

INDUSTRIAL EXHIBITION NEXT WEEK

Leading Manufacturers of City Will Display Goods to Educate Public

Plans for an industrial exhibition in the basement of the May Department Store, in which the leading manufacturers of Los Angeles will participate, were completed yesterday at a luncheon given under the auspices of the May Company in the Alexandria.

It was announced that the exhibition will be conducted from the 8th to the 13th inst.

Thomas May of the May Company told the manufacturers present that the entire basement of the department store will be turned over to them for the exhibition.

Mr. May said that the idea of the exhibition is to acquaint the general public with the large amount of staple goods which is being manufactured in Los Angeles.

"We want the manufacturers to come forward and show how merchandise is being manufactured in great quantities in Los Angeles. Mr. May declared, 'If the public realizes that good quality merchandise is being manufactured right here at home, I am sure that it will purchase this merchandise in preference to that manufactured in the East.'"

ACTRESS AT LAST BACK IN COUNTRY

Dolores Del Rio Re-enters from Mexico After Delay at Border

Dolores Del Rio, Mexican film actress, and her husband, Jaime Martinez Del Rio, a Mexican capitalist, finally succeeded yesterday in re-entering the United States after a two-day wait at the border.

Their entrance was effected through a deposit of \$2000 made by Edwin Carow, film director and son of Del Rio's film grandfather. The couple left the United States not a short time ago when their provisional passport of six months lapsed and sought readmittance into the country at Ensenada, Mexico. Here it developed that they lacked their birth certificates and other data, which had been left in Mexico City. This information is essential under the new provisions of the immigration law in cases where a permanent passport is desired.

Mr. Carow then came to their aid and deposited the \$2000 bond with immigration officials. Upon receipt of the necessary papers from Mexico City, the Del Rios again will cross the border and then re-enter the country formally.

CAR THIEVES ROUTED BY NEAR-VICTIM

Quartet Flee in Confusion When Owner Appears on Scene of Robbery

Because they refused to call it a day's work after succeeding in stealing one automobile, four youths were compelled to flee in confusion yesterday while they were trying to tow away a second machine with the one they had commandeered.

Mr. and Mrs. H. Bowles of 5935 Carleton Way were visiting friends in the neighborhood of Forty-first Drive and Figueroa street, and went on to get their machine just in time to see the four youths towing it away.

"Stop that!" Bowles shouted. His command apparently got the better of the bandits. The driver stepped on the accelerator so hard that the car rolled back on the wheels which were driving crashed into another machine parked near by.

Later on Mrs. Catherine Goldman, 1544 West Jefferson street, appeared on the scene and called the other automobile. She told Patrolmen Curtis and Wamsley it had been stolen a short time before in the immediate neighborhood.

Murder Charge Expected After Baby Inquest

Coroner Nance yesterday ordered an inquest at 2 p. m. today into the death of the baby of Mrs. Bonita Hernandez, 136 North Clarence street, which succumbed Sunday to burns.

Dep. Dist. Atty. Scheffman, who will attend the inquest, said he expects a murder charge to result against Jose Guzman, declared the scalding of the baby with boiling water, who was arrested on Monday. Guzman declared the scalding of the baby was accidental.

Mrs. Hernandez, who also was arrested, will be able to appear at the inquest as a witness, it was said. The inquest will be conducted at the bureau rooms of 2444 Broadway street.

Because it's FRANCO

YOU'LL like FRANCO White Bread. Try a loaf and you probably will say, like hundreds of other Los Angeles women have said, that FRANCO is downright delicious bread.

You'll like FRANCO'S thin, golden-brown crust; the creamy whiteness of the loaf within; its smooth, silky texture, its delicate, nut-like flavor.

You'll like the way FRANCO slices . . . smoothly, evenly, without crumbling.

You'll like the way FRANCO toasts . . . crispy, crunchy, golden slices.

You'll like the way FRANCO stays fresh . . . longer because it is thoroughly baked. All the moisture that usually escapes after baking and makes bread dry out, is baked out of FRANCO.

Prove for yourself that FRANCO fills every requirement of the bread that deserves a place on your table. Get a loaf from your grocer today . . . the richer, better bread

FRANCO WHOLE WHEAT

For those who prefer a dark bread, or to serve for variety with white at every meal . . . FRANCO Whole Wheat Bread is whole wheat at its best.

because it's FRANCO

If your grocer hasn't FRANCO, phone TRinity 0111, and we will see you get it thru him

TAXI DRIVER FOILS BANDIT CENSUS REVEALS ASTONISHING FACT

Intended Victim Knocks Fare Unconscious as Latter Attempts to Hold Him Up

After robbing two victims, two bandits, specializing in holding up taxicab drivers, yesterday almost met disaster when they attempted to rob O. W. Outland, 6200 Baseline street, Van Nuys, another taxi driver.

One of the bandits engaged Outland's cab at Vermont and Santa Barbara avenues, and when Outland drove to Manhattan and Santa Monica Boulevard his passenger struck a gun in his ribs and ordered him to surrender his valuables. Outland grabbed a heavy iron bar which he carried in the front compartment and struck the bandit a violent blow on the head, which rendered him unconscious and knocked him out of the cab.

Just as Outland jumped from his machine to grab the bandit's revolver a confederate who had been following in another automobile drove up and leveled his gun at Outland. He compelled Outland to get in his car and drive away.

When he drove away Outland said, he saw the bandit lifting his senseless confederate into their machine.

Shortly before the same two bandits robbed Paul Witham, a taxi driver, at South Bixel street, at Fifty-second street and Menlo avenue, and obtained from him a watch valued at \$45 by Joseph Leonard, 118 West Third street, another taxi driver, 46 at Twenty-seventh street and Maple avenue.

Richard J. Maroff, who says he is a film actor employed at Universal City, reported to the police yesterday that he and a girl companion were robbed of \$12 in cash and two watches valued at \$45 by three auto bandits. Maroff, who resides at Venice, said he and his companion were sitting in an automobile at Jefferson street and Hillcrest avenue.

Missouri Woman Helped

Parkville, Mo.—"I am proud to recommend Lydia E. Pinkham's Vegetable Compound. I was so ill that I could not lie down at night. Then I got my husband to go to the store and buy me a bottle of Lydia E. Pinkham's Vegetable Compound and I was up and around before the first bottle was gone, although I only weighed about thirty pounds. I took six or eight bottles and was able to do all my household work, washing and ironing, take care of my five boys and tend to my chickens and garden, where before I had to hire my washing and part of my household work."—Mrs. Anna Cozz, R. R. 2, Parkville, Missouri.

Mrs. Eddy Shown Deepest Student of Own Book

Evolution of Doctrine by Foundress Given

Dr. John M. Tuttle, C.S.B., of Kansas City, Mo., member of the Board of Lecturers of the First Church of Christ, Scientist, concluded his lecture series in Los Angeles by a lecture at the Philharmonic Auditorium yesterday.

Dr. Tuttle spoke in part as follows: "Early in the nineteenth century there was born, amid the granite hills of New Hampshire, a child whose delicate health was the despair of her parents, but whose spiritual-mindedness early became a subject of wonderment to all. From childhood Mary Baker walked close to God. To her religion was more than an experience, it was life itself. Years of semi-invalidism forced Mrs. Eddy to struggle for relief in many systems of healing. Her inquiring mental and physical healing power, a power he himself said should always be available. At last, when hopelessly helpless and medically hopeless, her tired eyes strained heavenward were gladdened by the revelation of spiritual truth unfolding its glories to her enraptured consciousness. No longer needed the aid of the physician, she echoed the words of the prophet: 'The days are prolonged, and every vision shall be hastened.' The revelation of spiritual truth, and in 1875 published her book, 'Science and Health, with Key to the Scriptures.' This book and the Bible are the sole textbooks detailing true science and effect, or spiritual evolution, and its

SEES HUSBAND TAKE HIS LIFE WITH GUN

Rich Contractor Takes Life as Wife Screams

Charles D. Wagner Uses Gun to End Troubles

Financial Worry Believed to be Responsible

While his bride of seven weeks looked on in horrified immobility, Charles D. Wagner, wealthy architect and contractor, shot and killed himself yesterday at his home at 761 South Ogden Drive. The reason for his suicide was financial worry, it is believed that financial worries arising out of the fact that virtually all his money was tied up in property prompted him.

A hysterical and incoherent story of the tragedy was told investigating detectives by the bride. She was entirely unharmed and, after preliminary questioning, permitting her to retire for medical treatment.

[G. Edwin Williams Photo]

Mrs. Charles D. Wagner

applicability and application to human life

Mrs. Eddy was herself the deepest

student of her book. She wrote

under divine inspiration, as she

herself said, "a book under or-

ders, but thereafter always the

text unfolded its treasures search-

lessly to her devoted search. It is

related of Mrs. Eddy that she

often expressed glad surprise as

some new phase of truth unfolded

to her from the pages of her book.

Casual readers of Science and

Health sometimes remark upon the

seeming repetition of state-

ments in the text. To the student,

however, this is not a redundancy,

but rather is an illustration of

truth's infinite shades of mean-

ing, which in variety make

even as the leaves of the tree. No

two leaves being exactly alike,

and every evolution of truth in

Mrs. Eddy's consciousness unfolded

her more and more clearly the re-

velation of spiritual truth unfold-

ing its glories to her enraptured

consciousness. No longer needed

the aid of the physician, she

echoed the words of the prophet:

"The days are prolonged, and

every vision shall be hastened."

The revelation of spiritual truth,

and in 1875 published her book,

"Science and Health, with Key to

the Scriptures." This book and

Land Offered for Park Site in Wilmington

The Banning property in Wilmington was offered to the city for park purposes yesterday by Councilman Golden in lieu of five parcels of land now in the process of condemnation proceedings in the Superior Court.

The property includes about twenty acres and the purchase price is stated to be \$275,000. The city has a condemnation suit on file, which will go to trial Friday, for the first place of property, but Councilman Golden last month asked a postponement while another scheme was worked out by Wilmington civic organizations.

The Council did not act on the offer of an option on the Banning property yesterday because of legal difficulties. The option was offered by J. S. McFarland, executor of the estate of Hancock Banning and in good for ninety days. The matter was referred to the Finance Committee.

The Council did not act on the offer of an option on the Banning property yesterday because of legal difficulties. The option was offered by J. S. McFarland, executor of the estate of Hancock Banning and in good for ninety days. The matter was referred to the Finance Committee.

"RESOLUTIONS" READY-MADE

How Railroads Got 'Support' for War on Terminal

Witnesses Tell Rail Board of One-Sided Proceedings

Union Station Hearings to Go on Again Today

The first day of the resumed hearings of the State Railroad Commission on the question of a union terminal for Los Angeles was marked yesterday by certain revelations regarding the manner in which the railroads obtained their boasted endorsements from chambers of commerce and outside communities.

As "resolutions" from various organizations outside the railroads were duly offered the commission for incorporation into the record of millions of dollars already on file on the terminal problem, City Attorney Stephens, Special Assistant Max Thelen and Attorney Hugh Gordon, counsel for the Council for the Development Association, conducted an enlightening cross-examination.

"Where did the text of this resolution of the Pomona Chamber of Commerce come from originally?" asked City Attorney Stephens of J. M. H. Page of the Pomona Chamber of Commerce. The answer was, "From a representative of the Pacific Electric Railway."

Arthur J. Johnson of the Monrovia Chamber of Commerce testified that the original text of the Monrovia resolution had been taken to the directors by a man from the Pacific Electric.

MOST OF THEM IDENTICAL City Attorney Stephens cross-examined each of the persons offering resolutions along the same lines and, obtaining in most cases the same responses, called the commission's attention to the fact that most of the resolutions were identical.

The cross-examinations also brought out declarations that in no case had the organizations endorsing the carriers' plan, as requested by the railroads, had before them persons representing the merits of the Plaza union station plan or the fact that the carriers' plan had been rejected by both the Interstate Commerce Commission and the Railroad Commission, and that both of these commissions had approved a union passenger station in the Plaza area as a basic factor in eliminating grade crossings and main-line train movements on Alameda street.

City Attorney Victor D. McCarthy of El Segundo said that at the meeting of the Trustees at the carriers' plan was endorsed, members of the Trustees had found on their desks copies of the pamphlets which the railroads were distributing for their plan in nearly all cases the cross-examination showed that representatives of the railroads had appeared before the chambers of commerce and other organizations and had told them that the carriers' plan would speed Pacific Electric cars into Los Angeles, and then followed the adoption of the resolutions already prepared by the railroads.

PETITIONS OF SAME FORM At the opening of the day's session a number of organizations outside of Los Angeles filed petitions for permission to intervene in the terminal case. City Attorney Stephens called the commission's attention to the fact that these petitions for the right to intervene all followed the same form, the names of the cities written in.

Charles A. Bland of the Long Beach Chamber of Commerce, however, testified that that organization had resisted the blandishments of the railroads and that its executive officer, declared that the terminal question is strictly a Los Angeles problem.

Helen K. Brook of the El Segundo Chamber of Commerce testified that the Pacific Electric Railway had secured the support of the Santa Fe one in that Chamber of Commerce, which adopted the resolution favoring the carriers' plan.

The commission's hearing will be resumed this morning.

ADVANTAGE SHOWN The advantages to the public and to the railroads of a union passenger station in the Plaza area, as set forth by the Railroad Commission in 1921 and approved by the Interstate Commerce Commission in July last, were set forth to the Railroad Commission yesterday in the testimony of George S. Hill of the commission's engineering department. Mr. Hill testified that the railroads had not prepared and presented plans for a Plaza passenger station in the Plaza area, as they had been ordered by the Railroad Commission to do in 1921, so that he, as representative of the engineering department of the commission in the hearings before the Interstate Commerce Commission in Washington, last year had prepared and presented plans to show that a Plaza passenger station could be built in the Plaza area, and that the plan was feasible and economical from the operating and investment cost.

This plan is known as the Plaza plan, and its net new money cost, as set forth to the Railroad Commission yesterday by Engineer Hill, was given as \$6,722,668. It immediately the same figure set forth by the Interstate Commerce Commission in its decision of July last, declaring that the Plaza passenger station is required in Los Angeles by present and future public necessity and convenience, and would entail no unjust financial burden on the carriers to build it.

ESTIMATES GIVEN Under the cost estimates given by Engineer Hill in his testimony yesterday the Plaza union passenger station and facilities proper were set down as costing \$7,889,000; coach yards, \$418,000; new track and connections, \$258,000; and Arroyo Seco bridge and other freight connections to east bank of the Los Angeles River, \$511,000, or a total gross investment expense of \$8,776,000. From this was deducted \$2,453,000 as the salvage value of the Santa Fe Depot grounds Depot properties now known as Central station, to be released from use and saleable, leaving the net cost of the Plaza union passenger station, coach yards, etc., \$6,323,000.

The Interstate Commerce Commission in its finding last July declared that this is \$1,000,000 less than the cost to the railroads to carry out their plan of building ele-

POOR BABY! PAPA GOT HIS PANTS

That is to Say, According to Counsel Before Blushing Judge, Youngster's "Nether Garments of Personal Character" Filched From Line by Irate Parent

Judge Summerfield was terribly embarrassed. So were Counselors Griffith Jones and L. R. Wharton. Of course Mary Jane Tiek and Frederick E. Tiek were not bothered so much as they are used to that sort of thing, and as for young Frederick E. Jr., why he regarded the whole affair with the bland complacency of 2½ years of age.

The Ticks and their lawyers were all in court yesterday to find out about the custody of Frederick E., Jr., pending trial of their divorce suit. Attorney Jones set out to show the court just what kind of a father he thinks Tiek is. He declared that Tiek, he said, where at Attorney Wharton sat up and took notice.

"Your Honor will hardly believe the tale I am about to unfold," he said. "I will introduce sworn testimony to substantiate it."

In the last time he went to see the baby, what does Your Honor suppose he did? Well, I'll tell you. He got mad and when he left he walked up to the clothes line in the back yard and picked it clean of a whole string of—of—of—well, Your Honor, let us say infantile nether garments of a particularly personal character."

At this point Attorney Wharton leaped into the fray. "And why should he not, indeed, I submit, Your Honor. He has not paid in the sweat of his brow for these very, as the learned counsel so aptly puts it, infantile nether garments of a particularly personal character?"

"But the baby," he-m-m, the young gentleman—surely his father knew—he must have known, being a father—the continuous and immediate need of the young gentleman for these articles of apparel," expostulated Judge Summerfield. "No, no, Mr. Wharton. I cannot for a moment concede that a father is privileged in such conduct. In fact, I believe it could justly be called reprehensible, and the more I reflect upon it the more repugnant it seems. So let us have done with this matter before it begins to appear that the father is the one who is in the wrong."

And Judge Summerfield passed a hand over a pink expanse of brow.

W. H. Leaf, Who Served Ohio in Civil War, Dies

William H. Leaf, 81 years of age, veteran of the Civil War, died yesterday. Funeral services will be conducted at 10 a.m. Friday at the W. A. Brown chapel, 1818 South Flower street.

Mr. Leaf served in the Twelfth Twenty-third Ohio regiments in the Civil War, seeing service in many battles. He formerly lived in Sylvan Grove, Kan. He had lived in Los Angeles about five years, residing at 1822 West Fifth street. Death followed an attack of apoplexy.

He leaves his widow, Mrs. Martha A. Leaf, and two daughters, Mrs. Ida May Shires and Mrs. Helen F. Morgan, all of Los Angeles.

FREE—10-Day Tube—Note coupon

HERE is a simple dental test. A test that will work a great change in the color of your teeth, in the color and firmness of your gums.

You may not realize it, but yet be handicapping yourself immeasurably with a smile that lacks the attraction of glistening whiteness and healthy gums.

So, for your own sake, send the coupon. It means so much to you.

That stubborn and dangerous film—you must remove it. Dental science now traces scores of tooth and gum troubles, directly or indirectly, to a germ-laden film that forms on your teeth.

You can't see it with your eyes, but run your tongue across your teeth and you will feel it... a slippery coating.

That film absorbs discolorations from food, smoking, etc. And that is why your teeth look "off color" and dingy.

It clings to teeth, gets into crevices and stays. It lays your gums open to bacterial attack. Germs by the millions breed in it. And they, with tartar,

are a chief cause of pyorrhea and decay. You can't have pretty teeth unless you combat it. Highest authorities tell you this.

Brushing won't end it. Ordinary dentifrices and cleansing won't fight film successfully. Feel for it now with your tongue. Note how your present cleansing method is failing in its duty.

Now new methods are being used. A dentifrice called Pepsodent—different in formula, action and effect from any other known.

Largely on dental advice the world has turned to it. Tooth and gum troubles hence are on the decline.

It removes that film. And firms the Gums. It accomplishes two important things at once: Removes that film, then firms the gums. No harsh grit, judged dangerous to enamel.

A few days' use will prove its power beyond all doubt. Why cling to old methods when world's authorities urge a better way?

Send the coupon. Clip it now before you forget.

DIABETES

Amazing Letters

Dr. W. H. LON-A-CO.

I am happy to say that I have had remarkable results in my case of Diabetes through the use of the LON-A-CO.

I showed persistent sugar with the last indication in eating before using the LON-A-CO and the diet kept me very weak and feeling half dead. Since using LON-A-CO I feel I can eat many things which were quite impossible for me before, I can even eat candy and still show no sugar.

I was under the care of noted Physicians in Chicago. They managed to find me sugar, but the diet was so rigid that I never felt in good condition and was under great stress.

I am a professional harpist and the loss of strength interfered very much with the practice of my

HELP KIDNEYS BY DRINKING MORE WATER

Take Salts to Flush Kidneys
and Help Neutralize Irritating Acids

Kidney and bladder troubles are the result of acid, which is secreted by the kidneys. The kidneys are the filters of the blood, and if they are not working properly, the blood becomes impure. This impure blood then circulates through the body, causing various ailments. The kidneys are the filters of the blood, and if they are not working properly, the blood becomes impure. This impure blood then circulates through the body, causing various ailments.

Dr. Lyon's
TOOTH POWDER
Cleans Teeth Safely
Avoids drugs
and useless claims

Dr. Lyon's Tooth Powder is a safe and effective way to keep your teeth clean and healthy. It contains no harmful chemicals and is gentle on the gums. It is a must-have for anyone who cares about their dental health.

Dr. Lyon's Tooth Powder is available at all drug stores and health food shops. It is a natural and safe way to maintain a healthy smile.

THURSDAY MORNING

CHURCH A
FOR DRTheaters to
Co-operateRepresentatives of
New York Pledge
Standard of PlChanning Pollock
That Censorship Ne
do Production of

NEW YORK, March 3.—Representatives of both the church and the theater crossed tonight within the theater to of-
ficially to both institutions can be brought about by
ten between them.

Speakers at a dinner the Federal Council of of Christ in America to-
advice of church and de-
that church leaders active
support plays of which to
approve.

The church repre-
sented for better plays; re-
fuge of the theater asked
for audience before which
sent their plays.

REFORM FROM WITH-
in. Arguing for theater ref-
George R. Andrews, chair-
the committee on drama
Federal Council, said that
form should come from
four people, he said, in
in terms of law and canon
lation, but asserted that
regulating done in the re-
art education and religion
for civilization.

"We can throw the whole
influence on the side of
ness and groups, especially
inside the theater, work-
ing things," he said. "The
recommend itself to us
and I believe will prove
in application. If you as-
we want you, of the the-
interested in the theater
with us and work with us
practical program of ac-
Mr. Andrews said the
leaders could and should
the plays and pictures of
they could approve. But
plained, he wished not to
decided in saying that the
should support only those
and pictures which mani-
festedly done because of
of the church.

"This is a mistake to
playground make," he said
often they include plays
